

AI CHEF PRO

GASTRO PRO PROMPTS eBOOK

300 professional prompts for the food & beverage industry

300 Prompts · 3 Blocks · 33 Sections · 70+ AI Agents

For chefs, managers, pastry chefs, bakers, bartenders, chocolatiers, sommeliers, restaurant owners, caterers, food truckers and every professional in the industry.

aichef.pro

Welcome to the Gastro Pro Prompts eBook

This eBook contains 300 professional prompts ready to use in AI Chef Pro. A well-built prompt multiplies the value of any AI tool. Here you will find prompts organized into 3 strategic blocks, designed to cover every situation you face in the day-to-day of the food & beverage industry.

How the eBook Is Organized

BLOCK A — Thematic Categories (#001 – #140)

10 categories × 14 prompts: Creative Cooking; Management, Costs & Waste; Catering; Digital Marketing; Pastry; Food Pairing; Allergens; Business Management; Leadership & Teams; Deep Research.

BLOCK B — Professional Profiles (#141 – #240)

10 profiles × 10 prompts. Executive Chef, Manager, Pastry Chef, Baker, Bartender, Sommelier, Chocolatier, Owner/Entrepreneur, Catering Chef, Food & Beverage Consultant.

BLOCK C — Business Types + Agents (#241 – #300)

7 business types + specialized agents in the suite: Independent Restaurant; Casual Restaurant & Bistro; Hotel & Hotel Food Service; Ghost Kitchen / Delivery; Pastry Shop & Production Kitchen; Bar & Cocktails; Food Truck; plus Specialized Agents.

How to Use This eBook

1. Find your category, profile or business type in its block (see the structure above).
2. Copy the prompt straight into the matching agent in AI Chef Pro.
3. Replace the fields in [BRACKETS] with your own information.
4. Experiment: adjust the tone, extend the request or combine prompts.
5. Save your best results — they are assets of your business.

BLOCK A

Thematic Categories

#001 – #140

*10 major thematic categories covering every area of professional culinary and food & beverage work.
Each category includes 14 ready-to-use prompts.*

1. Creative Cooking & Signature Recipes

Prompts #001 – #014

#001 Signature Recipe with a Local Ingredient

Act as a high-end chef with 15 years of experience in product-driven cuisine. I want to develop a signature recipe using [LOCAL INGREDIENT/STAR INGREDIENT]. The dish must reflect [CULINARY PHILOSOPHY: seasonal/hyperlocal/avant-garde]. Include: the story of the dish, ingredients with exact quantities for 4 servings, step-by-step preparation, suggested plating and a recommended pairing.

Recommended agents: *Avant-Garde Cuisine, Spanish Cuisine*

#002 Reinterpreting a Classic

You are a creative chef specialized in avant-garde cuisine. Take the classic dish [CLASSIC DISH NAME] and reinterpret it with modern techniques. Keep the essence of the original flavor but transform the texture, presentation and cooking technique. Give me 3 different versions: a minimalist one, a deconstructed one and one with a cultural fusion [CULTURE].

Recommended agent: *Avant-Garde Cuisine*

#003 7-Course Tasting Menu

Design a 7-course tasting menu for a [TYPE/CONCEPT] restaurant. Each dish must have narrative coherence, as if telling a culinary story about [THEME: a journey, a season, a memory]. For each course include: a poetic dish name, main ingredients, key technique and estimated kitchen prep time.

Recommended agent: *Avant-Garde Cuisine*

#004 Signature Zero-Waste Recipe

Act as a chef specialized in sustainable, zero-waste cooking. I have these whole ingredients available: [LIST OF INGREDIENTS]. Create a signature recipe that uses 100% of each ingredient, including the parts that are normally discarded (skins, seeds, stems, bones). Explain which part of each ingredient is used and for which preparation.

Recommended agents: *Avant-Garde Cuisine, Waste GenCal*

#005 Recipe Built Around a Specific Technique

I'm a chef and I want to master the technique of [TECHNIQUE: spherification/gelification/emulsification/fermentation/cold smoking]. Design a complete recipe that has this technique as its star. Include: a scientific explanation of the technique, ingredients with exact weights (grams or ounces), step-by-step process with critical temperatures and times, common mistakes to avoid and how to present it on the menu.

Recommended agents: *Avant-Garde Cuisine, Gastro Lexicum*

#006 Cultural Fusion with a Scientific Basis

Combine [CULTURE 1] cuisine with [CULTURE 2] cuisine to create a fusion dish that makes culinary sense, not just aesthetic sense. Argue why these two culinary worlds are compatible from the standpoint of shared aromatic profiles. Develop the complete recipe with ingredients from both cultures and mixed preparation techniques.

Recommended agents: *Avant-Garde Cuisine, Food Pairing AI*

#007 Fine-Dining Plant-Based Recipe

You are a chef specialized in high-end plant-based cooking. Create a vegan main course for a fine-dining restaurant using [MAIN VEGETABLE/LEGUME/MUSHROOM]. The dish must be satisfying, complex in flavor and visually striking. Include techniques to boost plant-based umami, protein substitutes and Michelin-star-level presentation.

Recommended agents: *VegChef Plant-Based, Avant-Garde Cuisine*

#008 Seasonal Recipe with Storytelling

Create a recipe for the [SEASON/MONTH] season using the best market products of that time of year. Also develop the story of the dish for the menu: a narrative of at most 80 words that evokes the origin of the ingredient, the local producer (fictional but believable) and the emotion the dish aims to convey to the guest.

Recommended agent: *Avant-Garde Cuisine*

#009 Recipe for a Prix-Fixe Menu

Design a prix-fixe menu of [NUMBER] courses for a restaurant with an average check of [PRICE] per person. The target food cost is [%]. Provide the complete recipe for each dish with a basic cost card per portion, listing ingredient, quantity in grams and estimated cost per dish.

Recommended agents: *Avant-Garde Cuisine, Waste GenCal*

#010 Signature Appetizers and Snacks

Create a series of 6 signature appetizers/snacks to open a menu at a [TYPE OF RESTAURANT]. They must be 1-inch bites (2-3 cm), served in a single mouthful and visually surprising. For each one: name, main ingredient, technique, serving temperature and a verbal description so the front-of-house team can present them correctly.

Recommended agent: *Avant-Garde Cuisine*

#011 Mother Sauces and Their Derivatives

Develop the recipe for the mother sauce [SAUCE NAME: espagnole/velouté/béchamel/hollandaise/tomato] with its exact proportions and classic preparation technique. From it, generate 5 derivative sauces with their specific modifications. Include culinary applications for each derivative and recommended storage.

Recommended agents: *Avant-Garde Cuisine, Gastro Lexicum*

#012 Creative Mise en Place for Service

I'm a head chef in a restaurant with [NUMBER] services per day. Design the complete mise en place to prepare the dish [DISH NAME] in record time during service. Organize it in order of anticipation: day-before preparations, morning preparations and à la minute tasks. Include estimated times and quality-control checkpoints.

Recommended agent: *Avant-Garde Cuisine*

#013 Recipe with Multiple Restrictions

A guest has the following dietary restrictions: [LIST: gluten-free/lactose-free/egg-free/vegan/nut-free]. Adapt the recipe for [ORIGINAL DISH] so it suits this profile without losing flavor, texture or presentation. Clearly state the substitutes used and how the preparation process changes.

Recommended agents: *Avant-Garde Cuisine, Allergen ID*

#014 Recipe Inspiration Board

Act as a culinary creative director. Based on the following conceptual inputs: color [COLOR], emotion [EMOTION], season [SEASON], childhood memory [MEMORY], develop a signature recipe that synthesizes all of these elements. Explain how each ingredient or technique represents each of the inputs given.

Recommended agent: *Avant-Garde Cuisine*

2. Management, Costs & Waste

Prompts #015 – #028

#015 Complete Professional Recipe Costing

Act as an expert food & beverage controller. I need the complete recipe costing for the dish [DISH NAME]. For each ingredient state: gross quantity in grams, yield loss percentage by type of processing, resulting net quantity, cost per kg/unit and net cost per portion. At the end calculate the total food cost and the suggested selling price with a margin of [%].

Recommended agent: *Waste GenCal*

#016 Yield Loss Analysis by Ingredient

I need the exact yield loss percentages for the following ingredients under the conditions I specify: [INGREDIENT 1] with process [PROCESS: peeling/filleting/deboning], [INGREDIENT 2] with process [PROCESS], [INGREDIENT 3] with process [PROCESS]. For each one state the standard yield loss percentage, the causes of variation and how to optimize yield.

Recommended agent: *Waste GenCal*

#017 Menu Food Cost Optimization

I have a menu with an average food cost of [%] and I need to bring it down to [%] without lowering perceived quality. Analyze these dish categories: [APPETIZERS/MAIN COURSES/DESSERTS] with their current selling prices. Suggest which ingredients to substitute, which portions to adjust and which high-cost dishes could have more profitable alternative versions.

Recommended agent: *Waste GenCal*

#018 By-Product Utilization Plan

In my kitchen I generate the following by-products every week: [LIST OF BY-PRODUCTS: fish bones/peels/meat trimmings/etc.]. Design a complete utilization plan to turn each by-product into something of value: stocks, infused oils, crisps, powders, etc. Include a basic recipe and a menu application for each one.

Recommended agents: *Waste GenCal, Avant-Garde Cuisine*

#019 Menu Engineering Matrix

Apply the menu engineering methodology (stars/plowhorses/puzzles/dogs matrix) to my current menu. I have these dishes with last month's sales data and cost: [LIST OF DISHES WITH SALES AND COST FOR EACH]. Classify each dish into its quadrant, explain the reasoning and recommend concrete actions for each category.

Recommended agent: *Waste GenCal*

#020 Monthly Raw Materials Budget

I'm the chef of a restaurant with [NUMBER] covers per day and [NUMBER] operating days per month. The average check is [PRICE] and the target food cost is [%]. Calculate the monthly raw materials budget and break it down by category: meats, fish, vegetables, dairy, beverages and other. Include a safety margin of [%] for unexpected costs.

Recommended agent: *Waste GenCal*

#021 Profitability Analysis by Dish

Calculate the real profitability of these dishes on my menu, considering not only ingredient cost but also labor cost based on preparation time: [DISH 1: ingredients, prep time, selling price], [DISH 2], [DISH 3]. Include the real contribution margin and an optimal price recommendation.

Recommended agent: *Waste GenCal*

#022 Standard Recipe for Standardization

Write the standardized recipe card for the dish [DISH NAME] so that any member of my team can prepare it identically. The card must include: a photo of the final plating (detailed description), ingredients with exact weights (grams or ounces) per portion and per 10 portions, numbered preparation process, serving temperature, plateware to use and updated cost.

Recommended agents: *Waste GenCal, Avant-Garde Cuisine*

#023 Inventory Control with AI

Design an inventory control system for a [TYPE OF BUSINESS] kitchen with [NUMBER] employees. Include: product categories to inventory, recommended counting frequency, reorder thresholds for the 20 most-used products, a simplified log sheet and an alert protocol for when stock drops below the minimum. Practical format to print and use in the kitchen.

Recommended agent: *Waste GenCal*

#024 Supplier Negotiation

Act as a food & beverage purchasing advisor. I need to negotiate better terms with my [CATEGORY: meat/fish/fruit and vegetable/dairy] supplier. My monthly purchase volume is [QUANTITY/AMOUNT]. Write a negotiation pitch, the key points to negotiate (price, payment terms, exclusivity, volume discounts) and a professional email to open the negotiation.

Recommended agent: *Waste GenCal*

#025 Food Waste Reduction

My restaurant currently generates [KG/WEEK] of food waste. The main sources of waste are: [LIST]. Design a 3-phase waste reduction plan (30, 60, 90 days) with concrete actions, who is responsible for each action and tracking metrics. Include a calculation of the potential cost savings.

Recommended agent: *Waste GenCal*

#026 Strategic Menu Pricing

Help me review the pricing of my menu. My data: restaurant type [TYPE], location [CITY/AREA], direct competition with an average price of [PRICE], my labor costs represent [%] of revenue. Analyze these [NUMBER] dishes with their current costs and suggest the optimal selling price using these methodologies: cost multiplier, perceived value and market price.

Recommended agent: *Waste GenCal*

#027 Simplified HACCP for the Kitchen

Design the HACCP critical control points for the preparation process of [TYPE OF DISH/PREPARATION: carpaccio/tartare/desserts with raw egg/smoked items]. Include: hazards identified at each stage, critical limits, monitoring system, corrective actions and documented records. Simple, visual format for use in the kitchen.

Recommended agents: *Allergen ID, Gastro Lexicum*

#028 Weekly Order Optimization

I have next week's menu with these dishes: [LIST OF DISHES]. My estimated portions per day are: [MONDAY: 40, TUESDAY: 55...]. Generate the optimized supplier order list, grouped by category and supplier, with the exact quantities needed plus a [%] margin. Indicate what can be prepared in advance to optimize the cold chain.

Recommended agent: *Waste GenCal*

3. Catering & Food Events

Prompts #029 – #042

#029 Wedding Menu Proposal

Design a complete menu proposal for a wedding with [NUMBER] guests and a budget of [PRICE] per person. The style of the event is [STYLE: classic/bohemian/rustic/modern]. 20% of the guests have restrictions: [LIST]. Include: welcome cocktail, first course, second course, dessert and sweet table. With a client-facing presentation and cost breakdown.

Recommended agent: *Catering AI+*

#030 Kitchen Logistics for a Large Event

I'm the chef in charge of a catering event for [NUMBER] guests. The agreed menu is [BRIEF DESCRIPTION]. The event is on [DATE] at [TYPE OF VENUE]. Create the complete production plan: prep schedule (D-3, D-2, D-1, event day by the hour), list of required equipment, recommended minimum crew and critical temperature and food safety points.

Recommended agent: *Catering AI+*

#031 Detailed Catering Quote

I need to prepare a detailed quote for a catering service: [EVENT DESCRIPTION]. Break it down by: raw material cost, staff (hours × role), equipment/tableware rental, transport/travel, disposables/presentation materials, profit margin of [%] and sales tax/VAT. Present the quote in a professional format to send to the client.

Recommended agent: *Catering AI+*

#032 Corporate Catering Menu

Design 3 menu proposals for a corporate event for [COMPANY/SECTOR] with [NUMBER] attendees. Guest profile: executives aged 35-55, a 2-hour working lunch. The proposals must be: BASIC (economical and efficient), MID (balance of quality and price) and PREMIUM (high-impact representation). Include the recommended setup for each option.

Recommended agent: *Catering AI+*

#033 Themed Welcome Cocktail Reception

Design the welcome cocktail reception for a themed event based on [THEME: harvest/Mediterranean/70s/Spain around the world]. Include: 8-10 finger food pieces with short recipes, 2 signature non-alcoholic cocktails and 2 alcoholic ones related to the theme, presentation and decoration of the space consistent with the theme and recommended service timing.

Recommended agents: *Catering AI+, Bar & Lounge AI+*

#034 Allergen Management at Large Events

I have a catering job for [NUMBER] people where [%] have a variety of dietary restrictions. Create the complete allergen management protocol for the event, based on the allergen rules that apply to you (US: the FDA's 9 major allergens · UK/EU: the 14 regulated allergens): identification of guests with restrictions, system of differentiated trays/plates, communication to the front-of-house team, labeling at the buffet and an emergency protocol if there is an allergic reaction.

Recommended agents: *Catering AI+, Allergen ID*

#035 International Buffet for a Hotel

Design the international breakfast/lunch/dinner buffet for a [CATEGORY] hotel with [NUMBER] rooms. The guest profile is: [DESCRIPTION]. Include a weekly rotation of the buffet items so that long-stay guests don't see repeats, considering: cultural variety, profitability per linear foot of display and rotation of the offering.

Recommended agent: *Catering AI+*

#036 Food Truck for a Special Event

Design the complete culinary concept to take my food truck to the [TYPE OF EVENT: festival/fair/Christmas market/sporting event] event. The space is [SQUARE FEET] and the expected attendance is [NUMBER] people over [HOURS]. Include: a reduced, executable menu (4-6 products), selling price, estimated cost, required equipment and a visibility strategy at the event.

Recommended agents: *Food Truck AI+, Catering AI+*

#037 Corporate Holiday Menu

Design the menu for the company holiday dinner/lunch for [NUMBER] people with a budget of [PRICE] per person. The venue is [DESCRIPTION]. The menu must have a festive spirit without being excessively expensive. Include an alcohol-free option for each course, an adaptation for the [%] of the group who are vegetarian and a matching table decoration proposal.

Recommended agent: *Catering AI+*

#038 Pre-Service Catering Checklist

Generate the complete operational checklist for the day of a [TYPE] catering event. Organized by phases: 4 hours before, 2 hours before, 1 hour before, 30 minutes before, during service and close-down/breakdown. Include: food temperature control, space layout, confirmation of quantities, staff readiness and backup equipment.

Recommended agent: *Catering AI+*

#039 Catering Profitability

Analyze the profitability of my last 3 catering events: [EVENT 1: type, guests, revenue, actual costs], [EVENT 2], [EVENT 3]. Calculate the net margin of each, identify where costs deviated from the original budget and provide 5 concrete recommendations to improve profitability on similar future events.

Recommended agents: *Catering AI+, Waste GenCal*

#040 Wine List for an Event

Design the wine selection for a [TYPE] event with menu [DESCRIPTION]. Budget per bottle: between [MINIMUM PRICE] and [MAXIMUM PRICE]. Include: 2 whites, 2 reds, 1 rosé and 1 sparkling wine for the toast. For each wine state: appellation of origin, grape variety, specific pairing with the dish on the menu and approximate cost price.

Recommended agent: *Catering AI+*

#041 Complaints and Returns Protocol for Catering

Write the professional incident management protocol for catering services. Include the procedure for: a dish that arrives cold, cross-contamination detected at an event, a shortage in the quantity of product, a complaint about the quality of a specific dish, a client dissatisfied with the overall presentation. For each case: immediate response, solution, follow-up and compensation.

Recommended agent: *Catering AI+*

#042 Catering Sales Proposal

Write a professional sales proposal for the catering service for [EVENT: type, date, guests]. The proposal must include: introduction of the service, detailed menu, terms of service, staff included, cancellation policy, payment method and differentiators from the competition. Formal but warm style, aimed at closing the sale.

Recommended agent: *Catering AI+*

4. Digital Marketing & Social Media

Prompts #043 – #056

#043 Instagram Post for a Signature Dish

Act as a food & beverage copywriter specialized in social media. Write the Instagram post to present [DISH NAME] from my restaurant. Communication style: [TONE: elegant/casual/emotional/technical]. Include: 3 versions of the caption (short 50 words, medium 100 words, long 200 words), 15 hashtags segmented by reach and the text for the introductory Stories.

Recommended agent: *General-purpose model (ChatGPT / Gemini)*

#044 Monthly Content Calendar

Create the social media content calendar for [BUSINESS NAME] for the month of [MONTH/YEAR]. Type of business: [DESCRIPTION]. Include: date, platform (Instagram/Facebook/TikTok/Pinterest), content type (reels/carousel/photo/stories), post topic, call to action and goal (engagement/sales/branding/education). Table format for 30 days.

Recommended agent: *General-purpose model (ChatGPT / Gemini)*

#045 SEO Description for a Dish on the Website

Write the SEO-optimized description of the dish [DISH NAME] for my restaurant's website. City where the restaurant is located: [CITY]. Include: SEO title (55-60 characters), meta description (150-160 characters), long description of the dish for the website (200 words), secondary keywords to use naturally and a call to action to book.

Recommended agent: *Menu Dish Local SEO*

#046 Professional Reply to a Negative Review

Act as a restaurant communications director. A guest left this negative review on Google: [REVIEW TEXT]. Write 3 versions of a reply: one empathetic and apologetic, one that explains the context without making excuses, and one that turns the complaint into a visible opportunity for improvement. All must be professional, non-defensive and aimed at winning the guest back.

Recommended agent: *General-purpose model (ChatGPT / Gemini)*

#047 Script for Cooking Reels

Write the complete script for a 60-second Instagram Reel showing the preparation of [DISH NAME]. Include: scenes with a visual description, on-screen text for each scene, suggested music by genre, a final call to action and the post caption. The style must be [STYLE: professional/fun/educational/emotional] and aimed at [GOAL].

Recommended agent: *General-purpose model (ChatGPT / Gemini)*

#048 Newsletter for Restaurant Guests

Write the monthly newsletter for the guests of [RESTAURANT NAME]. In this issue include: a new menu item for [MONTH], an upcoming special event [EVENT], the story of the chef/team (humanization), a featured seasonal product and an exclusive offer for subscribers. Warm style, like a personal letter from foodie friends. Length: 400-500 words.

Recommended agent: *General-purpose model (ChatGPT / Gemini)*

#049 New Menu Launch Strategy

Design the complete communication strategy for the launch of the new seasonal menu at [RESTAURANT NAME]. Include a 4-week plan: teaser week, reveal week, official launch week and consolidation week. For each week: social media actions, press communication, email marketing and in-house activations.

Recommended agent: *General-purpose model (ChatGPT / Gemini)*

#050 Chef's Bio and Professional Profile

Write the professional bio of chef [NAME] for: Instagram profile (150 characters), restaurant website (200 words), press release (400 words) and LinkedIn (300 words). Their details are: [EXPERIENCE, TRAINING, CUISINE, ACHIEVEMENTS, PHILOSOPHY]. Each version adapted to the corresponding channel and tone.

Recommended agent: *General-purpose model (ChatGPT / Gemini)*

#051 Content for Food Pinterest

Create 10 pin ideas for the [TOPIC: easy recipes/cooking techniques/world dishes/baking] board of my food Pinterest profile. For each pin state: title (max 100 characters), description (max 500 characters), relevant keywords for Pinterest SEO and the ideal type of image to go with it. Optimized for search on Pinterest.

Recommended agent: *General-purpose model (ChatGPT / Gemini)*

#052 Email Campaign for a Special Event

Design a 3-phase email campaign to promote [EVENT: special dinner/themed night/launch of a new space] on [DATE]. Email 1 (teaser, 2 weeks before), Email 2 (main invitation, 1 week before), Email 3 (last call + urgency, 2 days before). For each email: subject line, preheader, body copy and CTA. Tone: [TONE].

Recommended agent: *General-purpose model (ChatGPT / Gemini)*

#053 Hashtag Strategy by Restaurant Type

Develop the complete hashtag strategy for a [TYPE OF RESTAURANT] located in [CITY]. Create 4 groups of hashtags: mega hashtags (1M+ posts), large hashtags (100K-1M), medium (10K-100K) and niche (<10K). Also include geotagged hashtags for [CITY] and [NEIGHBORHOOD/AREA]. A total of 60 hashtags organized and ready to use in rotation.

Recommended agent: *General-purpose model (ChatGPT / Gemini)*

#054 Menu Presentation Script for Front of House

Create the verbal script that the front-of-house staff will use to present the dishes of the new menu to guests. For each of these dishes: [LIST OF DISHES], write a 20-30 second oral presentation that highlights: the main ingredient and its origin, the main cooking technique, the flavor/texture the guest will experience. Evocative language but not pretentious.

Recommended agents: *Avant-Garde Cuisine, General-purpose model (ChatGPT / Gemini)*

#055 Influencer Collaboration Plan

Design the collaboration plan with food influencers for [RESTAURANT NAME]. Include: ideal influencer profile (followers, engagement, niche), briefing for the visit (what to show, what key messages to communicate), collaboration terms (compensation, minimum content, publishing timing) and success metrics for the collaboration.

Recommended agent: *General-purpose model (ChatGPT / Gemini)*

#056 Google Business Profile Optimization

Optimize the Google Business Profile presence of [RESTAURANT NAME] in [CITY]. Generate: business description (750 characters, SEO-optimized with local keywords), standard replies to the 5 most common guest questions, 3 Google Posts for next month and a review management protocol (positive and negative) with reply templates.

Recommended agent: *Menu Dish Local SEO*

5. Pastry, Bakery & Chocolate Making

Prompts #057 – #070

#057 Restaurant Dessert Recipe

Act as the executive pastry chef of a fine-dining restaurant. Design a menu dessert for [SEASON] with [STAR INGREDIENT] as the protagonist. The dessert must have at least 3 distinct components (creamy texture, crunchy element and sauce/coulis). Include: dessert name, conceptual story, detailed mise en place, preparation of each component, plating and a pairing with dessert wine or coffee.

Recommended agent: *Creative Pastry*

#058 Signature Artisan Bread Recipe

Design the recipe for a signature artisan bread with [DIFFERENTIATING INGREDIENT: sourdough/ancient grains/special seeds/infusions]. Hydration percentage: [%]. Include: complete baker's formula with percentages, fermentation process (times, temperatures, stages), shaping technique, scoring and baking. Explain the impact of each variable on the final result.

Recommended agent: *Creative Bakery*

#059 Filled Chocolate Bonbon

Develop the complete recipe for a [TYPE: molded/dipped/truffle] chocolate bonbon with a [FLAVOR/INGREDIENT] filling. Include: tempering the chocolate (temperature curve by type: dark/milk/white), ganache or filling recipe with exact weights (grams or ounces), step-by-step process, decoration and storage. Calculate the approximate cost per unit.

Recommended agent: *Creative Chocolate Making*

#060 Professional Celebration Cake

Design the complete recipe for a [TYPE: birthday/wedding/anniversary] celebration cake with [BASE FLAVOR] and [THEMED DECORATION]. For [NUMBER] servings. Include: sponge, soaking syrup, filling cream, covering cream, tier-by-tier assembly technique, finish and decoration. With temperature specifications for each component and shelf-life times.

Recommended agent: *Creative Pastry*

#061 Croissant and Viennoiserie for Fine Pastry

Give me the professional recipe for the classic croissant with laminated dough. Weights for [NUMBER] units. Include: complete détrempe formula, lamination process (number of turns, resting times, temperature of the butter block), shaping, final proof and baking. Then adapt the same base dough to create 3 different viennoiseries.

Recommended agents: *Creative Bakery, Creative Pastry*

#062 Artisan Ice Cream with a Complex Flavor

Design the recipe for a high-end artisan ice cream with a [COMPLEX FLAVOR: curry-mango/cheese-fig/coffee-cardamom] flavor. Include: ice cream base mix (custard or sorbet type), weights of each component, required stabilizers and emulsifiers with exact doses, pasteurization, aging and churning process. Target texture and ideal serving temperature.

Recommended agent: *Creative Ice Cream Making*

#063 Chocolate and Beverage Pairing

Act as a chocolatier and sommelier specialized in cacao. Design a pairing of 5 bonbons or chocolate bars with 5 different beverages [CATEGORY: wines/whiskies/craft beers/spirits]. For each pair: origin and percentage of the cacao, sensory characteristics of the chocolate, chosen beverage with its notes and an explanation of why they work together.

Recommended agents: *Creative Chocolate Making, Food Pairing AI*

#064 Dessert Menu for a Restaurant

Design the complete dessert menu for a [TYPE] restaurant with [NUMBER] items. It must include: 1 refreshing citrus dessert, 1 chocolate dessert, 1 seasonal fruit dessert, 1 dairy-based dessert, 1 tartlet/pastry piece and 1 reinterpreted nostalgic dessert. For each one: name, menu description (40 words) and suggested price.

Recommended agent: *Creative Pastry*

#065 Ferments and Sourdough Starters

Guide me through creating and maintaining a [TYPE: wheat/rye/spelt] sourdough starter from scratch. A 14-day plan: what to do each day (proportions of flour, water and temperature), health indicators of the starter at each stage, how to know when it is ready to use and a weekly maintenance protocol once it is established. With a daily tracking table.

Recommended agents: *Creative Bakery, Fermentus Pre AI+*

#066 Pastry Shop Window Display for a Season

Design the pastry shop window display proposal for [SEASON: Christmas/Valentine's Day/Easter/Halloween/summer]. Include: 6-8 star seasonal products with description, suggested selling price and estimated cost, visual layout of the window, recommended packaging, communication message and social media actions to promote each piece.

Recommended agent: *Creative Pastry*

#067 Bean-to-Bar Chocolate Bar Recipe

Develop the complete process for making a bean-to-bar chocolate bar with cacao of [ORIGIN] origin. From cacao processing: roasting (temperature and time), winnowing, grinding, conching, tempering and molding. Include the variables that determine the final flavor profile and how to adjust them to achieve [DESIRED PROFILE: fruity/earthy/floral/spiced].

Recommended agent: *Creative Chocolate Making*

#068 Custom Cake Quote

Help me calculate the fair price for a custom cake with this data: [FLAVORS AND FILLINGS], [NUMBER] tiers, decoration [DESCRIPTION], for [NUMBER] people, delivery to [CITY]. Break down: materials cost, preparation time (hours × hourly rate of [PRICE]), packaging cost, profit margin and final price to the client. Justification of the price.

Recommended agents: *Creative Pastry, Waste GenCal*

#069 Artisan Gelato Recipe

Create the recipe for an Italian artisan gelato of [FLAVOR] with authentic texture. Key differences from American ice cream: lower fat percentage, higher density, less air incorporation (overrun). Include: ingredients with exact weights (grams or ounces), base mix, pasteurization process, aging (at least 4 hours at 39°F (4°C)), churning and storage and serving temperature.

Recommended agent: *Creative Ice Cream Making*

#070 Chocolate Decoration for Fine Pastry

Guide me through making the following chocolate decorations for fine pastry: [TECHNIQUE 1: transfer sheets/spray/shavings/molded figures]. For each technique: ideal type of chocolate, working temperature, necessary tools, step-by-step process and common mistakes. Also include how to combine these decorations in the final presentation of a restaurant dessert.

Recommended agents: *Creative Chocolate Making, Creative Pastry*

6. Food Pairing

Prompts #071 – #084

#071 Scientific Ingredient Pairing

Act as a specialist in molecular food pairing. I need to find the best ingredients to pair with [MAIN INGREDIENT]. Analyze the shared aromatic compounds and suggest: 3 classic, well-known pairings, 3 surprising but scientifically sound pairings, and 3 avant-garde pairings for innovation. For each one explain the molecular reason why.

Recommended agent: *Food Pairing AI*

#072 Wine and Dish Pairing for the Menu

Design the wine and dish pairing selection for my restaurant's menu. The dishes are: [LIST OF DISHES]. For each dish suggest: a white wine option, a red wine option, an alternative option (sparkling/rosé/fortified) and a non-alcoholic drink for non-drinkers. Include the reasoning behind the pairing in accessible language so the front-of-house staff can explain it.

Recommended agent: *Food Pairing AI*

#073 Craft Beer and Food Pairing

Create a craft beer and food pairing guide for [TYPE OF RESTAURANT/BAR]. For each beer style: [AMBER ALE, IPA, STOUT, SAISON, CRAFT LAGER], state the best dishes it pairs with, the aromatic/flavor reason why and how to present it on the menu. Also include serving temperature and ideal glass type.

Recommended agents: *Food Pairing AI, Bar & Lounge AI+*

#074 Tasting Menu with Beverage Pairing

For the following tasting menu of [NUMBER] courses: [DESCRIPTION OF EACH DISH], design the complete beverage pairing. Option 1: classic pairing with wines. Option 2: alternative pairing with craft beers, kombuchas and spirits. For each beverage: name, reason for the pairing and serving temperature. Total beverages for the full menu.

Recommended agent: *Food Pairing AI*

#075 Cheese and Artisan Product Pairing

Design a cheese board for [RESTAURANT/BAR] with 5-7 domestic and international varieties. For each cheese state: name, origin, type of milk, aging, sensory characteristics, the best accompaniment (jam, nuts, bread) and the ideal beverage pairing. Also create the menu description so the team can present it.

Recommended agent: *Food Pairing AI*

#076 Ingredient Substitutes Without Losing Flavor

A key ingredient in my recipe isn't available today: [ORIGINAL INGREDIENT]. I need a substitute that: keeps a similar aromatic profile, has a comparable texture, and is available right now. Analyze the aromatic compounds of the original ingredient and give me 3 alternatives ranked by similarity, noting the recipe adjustments each substitution requires.

Recommended agent: *Food Pairing AI*

#077 Olive Oil and Food Pairing

Act as an extra virgin olive oil expert. Design a pairing experience with 4 types of EVOO (arbequina, picual, hojiblanca, cornicabra) and specific food products. For each EVOO: aromatic and flavor characteristics, best tasting temperature, and which seafood, meat, and vegetable product it pairs with best and why.

Recommended agent: *Food Pairing AI*

#078 Food Pairing for a Vegetarian Menu

Design a complete 4-course vegetarian menu using food pairing principles to create surprising, satisfying flavor combinations. The main ingredients are: [INGREDIENT 1, 2, 3, 4]. For each dish, explain the food pairing logic behind it and why the combination works on a sensory level even if it isn't intuitive.

Recommended agents: *Food Pairing AI, VegChef Plant-Based*

#079 Olive Oil Tasting with Food Pairing

Design an extra virgin olive oil tasting event with food pairing for [NUMBER] people. Include: a selection of 4-5 different EVOOs with a profile sheet for each, tasting order (from mild to intense), accompanying ingredients to highlight each EVOO, a tasting sheet for attendees, and a verbal script for the tasting host to introduce each oil.

Recommended agent: *Food Pairing AI*

#080 Surprising Science-Backed Combinations

Give me the 10 most surprising and counterintuitive ingredient combinations that are scientifically backed by molecular food pairing. For each combination: ingredient A + ingredient B, the aromatic compounds they share, a specific recipe or preparation where to apply it, and the difficulty level for introducing it in a restaurant (1 to 5).

Recommended agent: *Food Pairing AI*

#081 Cocktail and Food Pairing

Design the pairing between 5 signature cocktails from the bar and the dishes on the menu at [RESTAURANT]. For each cocktail: name, base ingredients, aromatic profile, and 2-3 menu dishes it harmonizes with. Also create the verbal pitch for the bartender to explain when guests ask about the cocktail-and-food pairing.

Recommended agents: *Food Pairing AI, Bar & Lounge AI+*

#082 Spice Compatibility Analysis

I need to develop my own spice blend for [CUISINE TYPE/DISH]. Analyze the aromatic compatibility between these spices: [LIST OF 6-8 SPICES]. Tell me which ones work well together, which ones clash, and which ones are the link that ties the profiles together. Propose 2 different blends with exact proportions and their culinary use.

Recommended agent: *Food Pairing AI*

#083 Natural Umami: Flavor Enhancers

Act as a culinary chemist specialized in umami. Explain how to boost umami naturally in these dishes: [LIST OF DISHES]. For each dish, identify the umami ingredients already present, how to enhance them with technique (reduction, fermentation, roasting), which umami ingredients to add without it tasting artificial, and the expected effect on the final result.

Recommended agents: *Food Pairing AI, Gastro Lexicum*

#084 Infusion and Herbal Tea Menu for Restaurants

Design the infusion and herbal tea menu for [RESTAURANT TYPE], setting yourself apart from the standard tea bag. Include: 8-10 quality infusions (blends of herbs, flowers, dried fruit), a description of each with its properties and flavors, serving temperature, steeping time, and pairing with sweet or savory dishes. Add a visual presentation proposal.

Recommended agent: *Food Pairing AI*

7. Allergens & Food Safety

Prompts #085 – #098

#085 Complete Allergen Identification in a Recipe

Analyze this complete recipe: [RECIPE WITH INGREDIENTS AND QUANTITIES] and identify all the allergens present according to the allergen rules that apply to you (US: the FDA's 9 major allergens · UK/EU: the 14 regulated allergens). For each allergen found: which ingredient contains it, whether there is a cross-contact risk, and how to document it on the dish's spec sheet.

Recommended agent: *Allergen ID*

#086 Gluten-Free Dish Adaptation

Adapt this recipe to make it 100% gluten-free: [ORIGINAL RECIPE]. Identify all ingredients containing gluten (wheat, barley, rye, uncertified oats) and provide specific substitutes with the process changes and quantities needed. Also include the kitchen protocol to avoid cross-contact when preparing this dish.

Recommended agent: *Allergen ID*

#087 Complete Menu for Celiac Guests

Design a complete menu (starter, main course, and dessert) for a celiac guest at my [TYPE] restaurant. The menu must be as appealing as the standard menu, not a second-class version. Include recipes for each gluten-free dish, possible cross-contact risks to avoid in the kitchen, and how to present it on the menu with the appropriate gluten-free label.

Recommended agent: *Allergen ID*

#088 Allergen Protocol for the Whole Team

Write the allergen management protocol for [RESTAURANT NAME]. Include: the procedure for taking information from guests with allergies, communication between front of house and kitchen, preparing the allergen-free dish (utensils, work area, order of preparation), verification before serving, and the emergency protocol if a guest has a reaction. Procedures manual format.

Recommended agent: *Allergen ID*

#089 Allergen Labeling for Buffets

Design the allergen labeling system for the buffet at [HOTEL/CATERING/RESTAURANT]. For [NUMBER] buffet items, create the identification card format including: dish name, ingredient list, allergens present (visual icons), possible traces, and a recommendation for guests with severe allergies. Visual format that's easy to understand.

Recommended agent: *Allergen ID*

#090 Menu Free of the Major Allergens

Design a 3-course menu completely free of the major regulated allergens (gluten, crustaceans, eggs, fish, peanuts, soy, dairy, tree nuts, celery, mustard, sesame, sulfur dioxide, lupin, and mollusks; adjust to the list that applies to you). The menu must be flavorful and complete, not restrictive. Include recipes and verification of each ingredient.

Recommended agent: *Allergen ID*

#091 Cross-Contact Risk Analysis

In my kitchen I prepare dishes with and without gluten at the same time. Carry out a cross-contact risk analysis for: kitchen zones, shared utensils, fryers, griddles, and work surfaces. For each risk point identified: risk level (high/medium/low), specific corrective measure, and recommended daily verification.

Recommended agent: *Allergen ID*

#092 Allergen Training for Your Team

Create the allergen management training program for the front-of-house and kitchen staff of my restaurant. Include: the front-of-house module content (how to ask, how to inform, what to do if in doubt) and the kitchen module (preparation, cross-contact prevention, emergencies). Add a 10-question test to verify the team has absorbed the information.

Recommended agents: *Allergen ID, Mental Coach*

#093 Menu with Allergen Icons

Redesign the menu presentation for [RESTAURANT NAME] to include allergen information in a visually appealing, easy-to-read way. For each dish on the menu: [LIST OF DISHES], indicate the allergens with icons, how to adapt the dish on request (without X allergen), and the mandatory legal text to include on the menu according to the local regulations that apply to me.

Recommended agent: *Allergen ID*

#094 Sauces and Dressings Without Hidden Allergens

Analyze these commercial sauces I use in my restaurant: [LIST OF COMMERCIAL SAUCES/DRESSINGS]. For each one: list of allergens on the label, possible hidden allergens in compound ingredients, an equivalent homemade allergen-free alternative, and how to document the change on the spec sheets of the dishes that use them.

Recommended agent: *Allergen ID*

#095 Simplified HACCP Temperature Control

Design the simplified HACCP temperature control system for [TYPE OF BUSINESS]. Include: critical control points (receiving, storage, cooking, cooling, holding, and service), the critical limit temperature for each point, measurement frequency, a daily and weekly log sheet, and the action protocol when a point is out of limits.

Recommended agent: *Allergen ID*

#096 Managing Food Intolerances in a Restaurant

My restaurant receives more and more guests with intolerances (not severe allergies). Design the protocol for efficiently handling the most common intolerances: lactose, fructose, histamine, FODMAP, and sorbitol. For each intolerance: which foods to avoid, current menu adaptations, and how to communicate it to the guest without creating unnecessary alarm.

Recommended agent: *Allergen ID*

#097 Legal Labeling for Prepared Products

I need to create the legal label for these products made in my production kitchen/kitchen that I sell packaged: [DESCRIPTION OF PRODUCTS]. For each product, generate the mandatory information according to the regulations that apply to me: product name, ingredients (in order by weight), allergen declaration in the format my market requires (US: "Contains:" statement; UK/EU: allergens in bold), net weight, expiration/best-before date, storage conditions, business name and address, and directions for use.

Recommended agent: *Allergen ID*

#098 Kitchen Hygiene and Cleaning Plan

Design the hygiene and cleaning plan for the kitchen of [TYPE OF ESTABLISHMENT]. Include: cleaning frequency for each zone and piece of equipment (daily, weekly, monthly), recommended cleaning and sanitizing products with dilutions and contact times, a cleaning log for audits, and a protocol for verifying cleaning effectiveness.

Recommended agent: *Allergen ID*

8. Business Management & Profitability

Prompts #099 – #112

#099 Restaurant Business Plan

Help me develop the business plan for [RESTAURANT CONCEPT]. Include: executive summary, local market analysis (city: [CITY]), differentiating culinary concept, operating model, marketing plan, cost structure (initial investment, fixed and variable costs), 12-month revenue forecast, and break-even point. Professional format for a bank or investor.

Recommended agent: *Casual Restaurants AI+*

#100 Restaurant SWOT Analysis

Carry out the complete SWOT analysis for [RESTAURANT NAME] with this data: [BUSINESS DESCRIPTION, LOCATION, COMPETITION, CURRENT SITUATION]. For each quadrant (Strengths, Weaknesses, Opportunities, Threats) identify at least 5 specific, relevant factors. Close with 3 priority action strategies derived from the analysis.

Recommended agent: *Casual Restaurants AI+*

#101 Operating KPIs for Restaurants

Define the key operating KPIs I should monitor monthly in my [TYPE] restaurant. For each KPI: name, calculation formula, industry benchmark, recommended target for my type of business, and how to act if the value is below target. Include: average check, table turnover, RevPASH, occupancy rate, food cost %, and labor cost %.

Recommended agent: *Casual Restaurants AI+*

#102 Feasibility Study for a New Business

Carry out the feasibility study for opening a [TYPE OF FOOD & BEVERAGE BUSINESS] in [CITY/NEIGHBORHOOD]. Analyze: potential demand in the area, existing competition, estimated initial investment, monthly operating costs, potential revenue in conservative and optimistic scenarios, estimated payback time, and the main risks of the project.

Recommended agent: *Casual Restaurants AI+*

#103 Staff Schedule Optimization

I have a restaurant with the following shifts and workload: [DESCRIPTION OF SCHEDULES AND PEAKS]. I need to optimize the staffing of [NUMBER] employees to reduce labor costs to [%] of sales without lowering service quality. Suggest the optimal shift schedule, the profiles needed per shift, and how to handle demand peaks.

Recommended agent: *Casual Restaurants AI+*

#104 Chain Expansion Plan

I have [NUMBER] restaurants in [CITY/REGION] with the concept [DESCRIPTION]. I want to expand to [NEW CITY/COUNTRY]. Design the expansion plan: analysis of the new market, recommended expansion model (company-owned/franchise/joint venture), estimated investment, adaptations of the concept to the new market, an 18-month timeline, and success indicators for the expansion.

Recommended agent: *Casual Restaurants AI+*

#105 Restaurant Franchise: Feasibility

I have a restaurant concept [DESCRIPTION] with [NUMBER] successful company-owned locations. Analyze the feasibility of turning it into a franchise: which elements can be franchised, what documentation I need (operations manual, franchisee profile, standard contract), estimated investment for the franchisee, market-rate entry fee and royalties, and first legal steps.

Recommended agent: *Casual Restaurants AI+*

#106 Ghost Kitchen Business Model

Design the complete business model for a ghost kitchen in [CITY]. Include: the best culinary concept for delivery (which types of cuisine work best for delivery), delivery platforms to use (multi-platform strategy), equipment investment, operating costs vs. a brick-and-mortar restaurant, optimal delivery radius, and success metrics.

Recommended agent: *Casual Restaurants AI+*

#107 Onboarding for New Kitchen Staff

Design the onboarding plan for a new cook at [TYPE OF RESTAURANT]. Plan for the first 4 weeks: goals for each week, skills and knowledge to acquire, assigned mentor and follow-up method, evaluation criteria at the end of the probation period, and a welcome document with the team's values and culture.

Recommended agent: *Mental Coach*

#108 Upselling Strategy for Front of House

Develop the upselling and cross-selling strategy for the front-of-house team at [RESTAURANT NAME]. Include: non-intrusive suggestion techniques, what to offer and when in the order of service, sales arguments for the 5 highest-margin dishes/drinks, practical training with role-play of situations, and how to measure upselling results per server.

Recommended agent: *Casual Restaurants AI+*

#109 Loyalty Program Management

Design a customer loyalty program for [RESTAURANT NAME]. Include: program mechanics (points, tiers, benefits), rewards by tier (new guest, frequent, VIP), recommended management tool, how to communicate the program to guests, and success metrics (retention, visit frequency, average check of program members vs. non-members).

Recommended agent: *Casual Restaurants AI+*

#110 Restaurant Crisis Management

My restaurant is going through a crisis due to [CAUSE: viral negative review/health inspection/supplier failure/employee issue/kitchen accident]. Design the crisis management plan: immediate actions (first 24 hours), internal communication to the team, external communication to guests and media, corrective actions, and a plan to recover reputation and operations.

Recommended agent: *Casual Restaurants AI+*

#111 Food & Beverage Consulting Model

I'm a food service consultant and I want to structure my consulting service. Design: the service packages (basic, mid, premium) with content and reference price, a standard work process for a 3-month consulting project, tools and deliverables for each phase, a standard commercial proposal, and how to position myself in my local food service consulting market.

Recommended agent: *Casual Restaurants AI+*

#112 Revenue Management for Restaurants

Apply revenue management principles to my restaurant: [TYPE, NUMBER OF TABLES, HOURS]. Analyze: how to maximize RevPASH, meaning revenue per seat-hour available, a dynamic pricing strategy for different times of day/week, optimal management of reservations vs. walk-ins, policies to reduce no-shows, and how to handle overbooking moments.

Recommended agent: *Casual Restaurants AI+*

9. Leadership, Teams & Well-Being

Prompts #113 – #126

#113 Stress Management in a Professional Kitchen

Act as a coach specialized in the well-being of hospitality professionals. I'm experiencing [STRESS SYMPTOMS/SITUATION] in my job as [POSITION]. The workload is [DESCRIPTION]. Design a personalized stress management plan for the next 30 days: techniques for before service, during high-pressure moments, and post-service recovery.

Recommended agent: *Mental Coach*

#114 Team Performance Review

Design the semiannual performance review system for the kitchen team at [TYPE OF RESTAURANT]. Include: competencies to evaluate (technical and soft skills), rating scale, evaluation form for the manager and self-evaluation for the employee, feedback interview protocol, and the resulting individual development plan. Ready-to-use format.

Recommended agent: *Mental Coach*

#115 Conflict Resolution in the Kitchen Brigade

In my kitchen team there is tension between [DESCRIPTION OF CONFLICT: two employees/departments/morning-evening shift]. The situation has lasted [TIME] and is affecting service. Act as a mediator and design: the mediation strategy, questions to understand both sides, a fair solution proposal, and a follow-up plan so the conflict doesn't come back.

Recommended agent: *Mental Coach*

#116 Team Motivation in the Slow Season

My kitchen team is demotivated during the slow season. The context is: [DESCRIPTION OF THE TEAM AND SITUATION]. Design a motivation plan for the next 2 months that includes: inspiring goals for the team, internal training that takes advantage of the downtime, specific recognition, team activities, and how to communicate the value of the slow season in a positive way.

Recommended agent: *Mental Coach*

#117 Assertive Communication with the Team

I need to improve communication with my kitchen team. Current situation: [DESCRIPTION OF COMMUNICATION PROBLEMS]. Give me: assertive communication techniques applied to the kitchen environment, how to give negative feedback constructively, how to recognize good work effectively, and specific phrases for difficult situations (serious mistake, poor performance, conflict).

Recommended agent: *Mental Coach*

#118 Internal Team Training Plan

Design the annual internal training plan for the team at [TYPE OF RESTAURANT] with [NUMBER] people. Based on the needs identified: [LIST OF AREAS TO IMPROVE]. For each training module: objective, content, duration, who delivers it (internal/external), methodology, and how to evaluate whether the training has had an impact on day-to-day work.

Recommended agent: *Mental Coach*

#119 Burnout Prevention in Hospitality

The restaurant industry has some of the highest burnout rates. As a chef/manager of [NUMBER] people, design the burnout prevention program for my team. Include: early warning signs to look for, risk factors specific to my context, concrete preventive interventions, a break and vacation policy, and psychological support resources.

Recommended agent: *Mental Coach*

#120 Kitchen Talent Retention

I have high turnover in my kitchen team: [TURNOVER RATE %]. The main reasons for leaving are: [LIST]. Design a talent retention strategy that goes beyond salary: career path, non-monetary benefits, positive work culture, recognition, autonomy, and continuous learning. With concrete actions and improvement indicators.

Recommended agent: *Mental Coach*

#121 Mindfulness for Chefs: Daily Routine

Design a mindfulness routine adapted to the reality of a chef or cook. The time available is: before service [X minutes], during service (micro-practices), after service [X minutes]. For each moment: a specific technique adapted to the kitchen context, the goal of the practice, and the expected benefit. A 4-week progression from simplest to deepest.

Recommended agent: *Mental Coach*

#122 Positive Leadership in the Kitchen Brigade

I want to change my leadership style from hierarchical authority to positive, collaborative leadership while maintaining standards of excellence. My current team: [DESCRIPTION]. Give me: the principles of positive leadership applied to the kitchen, how to make the transition without losing authority, 10 specific behaviors to change starting tomorrow, and how to measure the impact on the team.

Recommended agent: *Mental Coach*

#123 Effective Team Meetings (Briefings)

Design the ideal 10-minute pre-service briefing format for my kitchen and front-of-house team. Structure: what must be covered (reservations, incidents, daily specials, relevant allergens), how to manage time so it doesn't run over, how to create positive energy before service, and how to incorporate feedback from the previous service constructively.

Recommended agent: *Mental Coach*

#124 Managing a Difficult Employee

I have an employee [POSITION] with these problematic behaviors: [DESCRIPTION]. They've been on the team for [TIME]. The rest of the team is affected. Design the action plan as a manager: initial feedback conversation (script), improvement plan with measurable goals, 30/60/90-day follow-up, and how to document the process professionally and protect yourself legally.

Recommended agent: *Mental Coach*

#125 Work-Life Balance for Hospitality Pros

I work in hospitality with [USUAL SCHEDULE]. I have trouble disconnecting and my personal life is suffering. Act as a life coach and design a realistic work-life balance plan for hospitality professionals. Include: strategies for disconnecting between shifts, recovery routines, healthy boundaries with work, and how to protect personal time.

Recommended agent: *Mental Coach*

#126 Team Culture in a Restaurant

I want to build a strong team culture in my [TYPE] restaurant. Currently the culture is [DESCRIPTION OF CURRENT SITUATION]. Define: the team values (maximum 5, with a description of what each means in daily practice), team rituals that reinforce the culture, how to bring new employees into the culture, and how to protect it when tensions arise.

Recommended agent: *Mental Coach*

10. Deep Research & Culinary Investigation

Prompts #127 – #140

#127 Researching an Unfamiliar Ingredient

Act as a culinary researcher and food scientist. I need all the information about the ingredient [INGREDIENT/PRODUCT NAME]: geographic and historical origin, detailed nutritional composition, relevant bioactive compounds, organoleptic profile (aroma, flavor, texture), suitable preparation techniques, standout producers, and applications in modern cooking.

Recommended agent: *Gastro Lexicum*

#128 History and Evolution of a Culinary Technique

Research the complete history of the culinary technique [TECHNIQUE NAME: sous vide/fermentation/spherification/smoking/freeze-drying]. Include: historical origin and context, milestones in its development and popularization, the scientific basis behind it, chefs and researchers who have developed it, current applications in fine dining, and future trends of the technique.

Recommended agent: *Gastro Lexicum*

#129 Food Trend Analysis

Analyze the most relevant food trends for the [TYPE: casual dining/fine dining/pastry/beverages] sector in [YEAR]. For each trend identified: description, why it's emerging now (cultural/social/technological context), examples of chefs or businesses already applying it, how to incorporate it into my business, and the estimated lifespan of the trend.

Recommended agent: *Gastro Lexicum*

#130 Regional Cuisine: Deep Research

Research in depth the traditional cuisine of [COUNTRY/REGION]. Include: products with protected designation of origin or protected geographical indication, emblematic dishes with historical origin, native culinary techniques, optimal seasons for the main products, contemporary chefs who are references for that cuisine, and how to reinterpret it in a modern way.

Recommended agents: *Spanish Cuisine*, *Gastro Lexicum*

#131 Fermentation Science: Theoretical Foundations

Act as a microbiologist and fermentation chef. Explain the complete science behind the fermentation of [PRODUCT: milk/vegetables/meats/fish/beverages]. Include: microorganisms involved, the biochemical process step by step, variables that control fermentation (pH, temperature, salt, time), critical food safety factors, and how to apply this knowledge in specific culinary applications.

Recommended agents: *Fermentus Pre AI+*, *Gastro Lexicum*

#132 Cuisine of a Country: Complete Guide

Develop the complete culinary guide to [COUNTRY/REGION OF THE WORLD]. Include: the geographic and climatic context that defines the cuisine, essential native ingredients, traditional cooking techniques, emblematic national dishes (with simplified recipes), hard-to-find ingredients and their substitutes, and how to fuse this cuisine with Mediterranean cooking.

Recommended agent: *Gastro Lexicum*

#133 Molecular Gastronomy: Scientific Foundations

Explain the scientific basis of the following molecular gastronomy applications that I want to implement: [TECHNIQUE 1: agar gelification/basic spherification/lecithin foams]. For each technique: scientific principle, active ingredients with exact doses (per liter/kg), step-by-step process with critical variables, troubleshooting for common problems, and applications on the menu.

Recommended agent: *Gastro Lexicum*

#134 Nutrition Applied to Professional Cooking

Act as a nutritionist and chef. Design a daily set menu of [NUMBER OF COURSES] for [TYPE OF ESTABLISHMENT: institutional/healthy restaurant/sports center] that meets: calorie requirements of [X] kcal, macronutrient distribution [%P/%C/%F], priority micronutrients [LIST], and that is at the same time flavorful and visually appealing.

Recommended agent: *Gastro Lexicum*

#135 Research on New Ingredients

Research the most promising emerging ingredients in professional food service in [YEAR]: alternative proteins, seaweeds, exotic ferments, little-known spices, etc. For each ingredient: origin, availability in my local market, nutritional and organoleptic properties, approximate price, supplier where to source it, and 2-3 applications in restaurant cooking.

Recommended agent: *Gastro Lexicum*

#136 Culinary Sustainability: Theoretical Framework

Develop the theoretical and practical framework for sustainability applied to my [TYPE] restaurant. Include: the pillars of culinary sustainability (product, energy, water, waste, social), relevant certifications (Green Michelin Star, Green Restaurant Association, etc.), concrete actions ranked by impact and implementation cost, and how to communicate it to guests authentically.

Recommended agent: *Gastro Lexicum*

#137 Dictionary of Technical Kitchen Terms

Act as Gastro Lexicum and create the complete technical glossary for the [SAUCES/PASTRY/BUTCHERY/FISH STATION/COLD KITCHEN] station. Include: 30 essential technical terms, a precise definition of each, a practical example of application in a professional kitchen, and common misinterpretations. Ordered from most basic to most advanced.

Recommended agent: *Gastro Lexicum*

#138 Competitive Analysis for Restaurants

Carry out the competitive analysis of the 5 main competitors of [RESTAURANT NAME] in [CITY/AREA]. For each competitor: type of cuisine and concept, price range, perceived strengths and weaknesses, digital communication strategy, points of differentiation. Conclude with the differentiation opportunities for my restaurant.

Recommended agent: *Gastro Lexicum*

#139 Market Research for a New Concept

I want to open a new restaurant concept based on [CONCEPT DESCRIPTION]. Before investing, I need to research: size of the target market in [CITY], direct and indirect competition, ideal customer profile with their spending behavior, barriers to entry, and critical success factors for this type of business. Conclude with a feasibility traffic light.

Recommended agent: *Gastro Lexicum*

#140 History of Gastronomy: Timeline

Create the timeline of the most important milestones in world gastronomy from the 19th century to today. For each milestone: date, what happened, who the protagonist was, impact on global gastronomy, and the legacy that persists today. Include: Escoffier and the codification of classic cuisine, Nouvelle Cuisine, the Spanish culinary revolution, elBulli as a laboratory, and the era of the chef-artist.

Recommended agent: *Gastro Lexicum*

BLOCK B

Professional Profiles

#141 – #240

10 professional profiles from the food & beverage industry. Each profile includes 10 prompts designed specifically for the challenges and responsibilities of that role.

1. Executive Chef

Prompts #141 – #150

#141 Annual Menu Strategy

I'm the executive chef of a restaurant group with [NUMBER] restaurants. I need to design the annual menu strategy aligned with: market trends, product seasonality, food cost targets of [%], and differentiation between the group's different concepts. Give me the annual menu planning framework with key change dates and the new dish development process.

Recommended agents: *Avant-Garde Cuisine, Waste GenCal*

#142 Multi-Location Kitchen Management

As the executive chef responsible for [NUMBER] kitchens in different locations, I need to standardize processes without losing the identity of each location. Design: the standardized recipe spec sheet system, communication protocol between the chefs at each location, a monthly supervision visit (what to check, how to document), and uniform quality metrics for all locations.

Recommended agents: *Waste GenCal, Avant-Garde Cuisine*

#143 Presenting a New Menu to Investors

I have to present the new menu proposal to the group's investor partners. I need an executive document that includes: culinary justification for the changes, expected impact on food cost (from [%] to [%]), projected average check, competitive analysis that justifies the positioning, and an implementation timeline. Professional tone for non-cooks.

Recommended agent: *Avant-Garde Cuisine*

#144 Mentoring a Talented Junior Chef

I'm mentoring a chef who is [AGE] years old with [DESCRIPTION OF TALENT AND AREAS FOR IMPROVEMENT]. Design the 6-month mentoring plan to develop their potential: goals per month, learning experiences (stages, special projects, gradual responsibilities), structured monthly feedback, and a roadmap toward their next professional role.

Recommended agent: *Mental Coach*

#145 Developing a Brand's Culinary Identity

As an executive chef I need to define and document the culinary identity of the group [NAME]. Include: culinary DNA (culinary values, forbidden and essential ingredients, presentation style), cornerstone recipes that represent the brand, signature techniques, the group's internal culinary vocabulary, and how to carry this identity into every new dish that gets developed.

Recommended agent: *Avant-Garde Cuisine*

#146 Kitchen Budget Management

I'm an executive chef and I must manage the annual kitchen budget of [AMOUNT] for [NUMBER] restaurants. Help me: distribute the budget by category (raw materials, labor, equipment, training, R&D), set up monthly variance alerts, negotiate cost reductions without affecting quality, and present the budget to the management committee.

Recommended agent: *Waste GenCal*

#147 Culinary R&D: Innovation Project

Lead the group's culinary R&D project for the next season. The research focus is [TOPIC: fermentation/alternative proteins/zero-waste cooking/influences of a culture]. Design: project methodology, R&D session calendar, how to document the results, the process for selecting dishes for the menu, and how to communicate the innovation to the press.

Recommended agents: *Avant-Garde Cuisine, Food Pairing AI, Gastro Lexicum*

#148 Collaborating with Other Chefs: Pop-up

I'm going to organize a collaboration pop-up dinner with chef [NAME] from [RESTAURANT]. I need to design: the narrative concept of the dinner, how to divide the dishes between the two chefs harmoniously, a press kit, social media communication for the event, kitchen logistics for a night with a mixed brigade, and the menu price with a profitability calculation.

Recommended agents: *Avant-Garde Cuisine, Catering AI+*

#149 Selecting and Equipping a New Kitchen

I'm going to equip the kitchen of a [TYPE OF RESTAURANT] with a capacity of [NUMBER] covers/day. Design: the list of necessary equipment (by station: cold, hot, pastry, dishwashing) with technical specifications, a functional kitchen layout based on workflow, criteria for selecting brands and suppliers, estimated budget, and an implementation plan.

Recommended agent: *Gastro Lexicum*

#150 Culinary Style Guide for the Team

Create the culinary style manual for the restaurant group [NAME] so the whole kitchen team has a clear reference. Include: the group's culinary philosophy (in 10 principles), product quality standards (how to select it, how to verify it), forbidden and preferred techniques, presentation and plating style with examples, and the values that guide creative decisions.

Recommended agent: *Avant-Garde Cuisine*

2. Restaurant Manager

Prompts #151 – #160

#151 Monthly Restaurant P&L Analysis

I'm a restaurant manager and I need to analyze last month's P&L: revenue [X], rent [X], food cost [X%] and labor cost [X%], utilities [X], marketing [X] and other [X]. Interpret these figures, identify the deviations from targets, explain the likely causes and propose the 3 highest-priority corrective actions for next month with their expected impact.

Recommended agents: *Waste GenCal, Casual Restaurants AI+*

#152 Reservation Management and Floor Optimization

As a manager I need to optimize the reservation system for [RESTAURANT NAME] with [NUMBER] tables. Design: a reservation policy (minimum advance notice, deposit policy, walk-in handling), a protocol for nights with a waitlist, a no-show management system, and how to maximize occupancy on slow days of the week.

Recommended agent: *Casual Restaurants AI+*

#153 Weekly Reporting for Management

Help me create the weekly reporting template to present to management. It must include: sales vs. target (by day and product), guest metrics (covers, average check, satisfaction score), kitchen KPIs (food cost, waste), relevant incidents of the week, open actions from the previous week and 3 priorities for the following week.

Recommended agent: *Casual Restaurants AI+*

#154 Supplier Management and Negotiation

As a manager I handle relationships with [NUMBER] suppliers. I need to review the supplier portfolio to cut costs by [%]. Help me with: supplier evaluation criteria (quality, price, service, reliability), an approval process for new suppliers, a renegotiation pitch for current ones and a backup supplier policy to avoid stockouts.

Recommended agent: *Waste GenCal*

#155 Restaurant Opening and Closing Protocol

Design the complete opening and closing protocol for a [TYPE OF RESTAURANT]. Opening: kitchen tasks (in order), front-of-house tasks, mandatory checks before opening to the public, team briefing. Closing: cash-out and accounting close protocol, cleaning and food safety, facility shutdown and a daily closing report with incidents. Checklist format.

Recommended agent: *Casual Restaurants AI+*

#156 Managing Multicultural Teams

My restaurant team includes employees of [NUMBER] different nationalities. I'm having communication and team cohesion difficulties. Design: cultural integration strategies, communication adjustments for different cultural profiles, how to handle culture-based conflicts and how to turn diversity into a strength for the team.

Recommended agent: *Mental Coach*

#157 New Location Opening Plan

I'm the manager in charge of opening the new [CHAIN/BRAND] location in [CITY]. Design the opening plan: a 90-day pre-opening timeline, the team needed and the hiring and training process, a soft opening plan, a communication strategy for pre-opening and the first weeks, first-month success KPIs and a contingency plan.

Recommended agent: *Casual Restaurants AI+*

#158 Guest Experience: Customer Journey

Map the complete customer journey of a guest at [RESTAURANT NAME], from discovery to post-visit. For each touchpoint identify: the current experience, the potential pain point, the improvement opportunity and the concrete action to improve it. Prioritize the improvements by impact on satisfaction and implementation cost.

Recommended agent: *Casual Restaurants AI+*

#159 Managing Events and Groups on the Floor

My restaurant is receiving more and more event and group requests. Design: the service package for groups (minimum party size, available menu types, terms), a coordination protocol between front of house and kitchen for events, a standard event order sheet, pre- and post-event communication with the client and how to win more group business.

Recommended agents: *Catering AI+, Casual Restaurants AI+*

#160 Health Inspection: Total Preparation

My restaurant is about to have a health inspection. Help me prepare: a verification checklist for every area (kitchen, storage, walk-ins, locker rooms, dining room), the mandatory documentation I must have at hand (HACCP, temperature logs, staff training records), the points most frequently penalized in inspections and how to fix them before the visit.

Recommended agents: *Allergen ID, Casual Restaurants AI+*

3. Professional Pastry Chef

Prompts #161 – #170

#161 Pastry Display Cases for the Whole Year

I'm a production-kitchen pastry chef and I need to plan the display case assortment for the 12 months of the year. For each quarter: 8-10 individual pastries, 2-3 showpiece cakes, 1-2 exclusive seasonal products. Include a suggested sale price, estimated production time and shelf life for each item. Geared toward getting the most profit out of the production kitchen.

Recommended agent: *Creative Pastry*

#162 Artistic Sugar Techniques

Guide me through artistic sugar techniques for pastry: [TECHNIQUE: pulled sugar/blown sugar/poured sugar/caramelized sugar]. For each technique: the working temperature of the sugar (temperature curve), essential tools, step-by-step process, common problems and their solutions, and how to incorporate it into a commercially viable pastry piece (not just a decorative one).

Recommended agent: *Creative Pastry*

#163 No-Added-Sugar Pastry Line

I want to develop a pastry line for diabetics and people cutting back on sugar. Design 6 no-added-sugar recipes using natural sweeteners (erythritol, xylitol, stevia, fruit) that keep professional flavor and texture. For each recipe: ingredients with exact weights (grams or ounces), process, texture notes and shelf life. With estimated nutrition labeling.

Recommended agents: *Creative Pastry, Allergen ID*

#164 Production Kitchen Organization for High Output

I have a pastry production kitchen that needs to produce [QUANTITY] units/day of [PRODUCT TYPES]. Optimize: the distribution of tasks by employee level (pastry cook, assistant, apprentice), the production schedule (what to do and when so everything is ready for opening), walk-in and freezer management (what goes in frozen/refrigerated/room temperature) and a workflow without bottlenecks.

Recommended agents: *Creative Pastry, Waste GenCal*

#165 International Pastry Trends

As a pastry chef I want to bring the latest international pastry trends of [YEAR] into my production kitchen. Research and present: 5 restaurant pastry trends, 5 shop/display-case pastry trends and 5 emerging flavor trends. For each trend: description, origin, a recipe or technique to implement it and fit with my local market.

Recommended agents: *Creative Pastry, Gastro Lexicum*

#166 Christmas Pastry Shop Window

Design the pastry shop window proposal for the Christmas campaign. Include: 5 star pieces for the campaign (artisan nougat, shortbread cookies, King's Cake, Christmas cake and a surprise piece), a recipe for each with exact weights (grams or ounces) for a production run of [QUANTITY] units, sale price, recommended holiday packaging and a social media communication plan for the campaign.

Recommended agent: *Creative Pastry*

#167 High-Quality Vegan Pastry

Develop a 100% vegan pastry line for [TYPE OF BUSINESS] that doesn't look or taste like a second-rate version. For the following products: genoise-style sponge, buttercream, chocolate ganache, puff pastry and sablée dough; give the exact vegan substitutes (brands if possible) with their equivalencies and process adjustments.

Recommended agents: *Creative Pastry, VegChef Plant-Based*

#168 Seasonal Dessert Menu for a Restaurant

As a restaurant pastry chef, design the dessert menu for the [SEASON] season. The restaurant's cuisine is [DESCRIPTION]. Create 5 desserts that: dialogue with the chef's culinary style, use seasonal products, offer different temperatures and textures, and can be executed by the team during service. Include the mise en place and plating time for each.

Recommended agents: *Creative Pastry, Avant-Garde Cuisine*

#169 Cost Management in the Production Kitchen

As the pastry chef in charge of the production kitchen I need to reduce production cost by [%]. Analyze these best-selling products: [LIST WITH RECIPES AND CURRENT COSTS]. Identify where the waste and hidden costs are, suggest ingredient alternatives without lowering quality, propose process optimizations to reduce preparation time and calculate the new projected cost.

Recommended agents: *Waste GenCal, Creative Pastry*

#170 Couverture Chocolate: Mastering Tempering

I need to perfectly master chocolate tempering for my production kitchen. Explain in detail: the physics and chemistry of tempering (cocoa butter crystal forms), the tempering curve for dark, milk and white chocolate (melting, cooling and working temperatures), tempering methods (marble slab, seeding, microwave) and how to verify the temper is correct.

Recommended agents: *Creative Chocolate Making, Creative Pastry*

4. Artisan Baker

Prompts #171 – #180

#171 Baker's Formula: Universal Base Recipe

Act as an artisan master baker. Develop the baker's formula for [TYPE OF BREAD: country loaf/baguette/rye/whole spelt] with the following conditions: hydration [%], pre-ferment [type and %], flour [type]. Present it in baker's percentage format and in absolute weights for [NUMBER] pieces of [WEIGHT] grams each.

Recommended agent: *Creative Bakery*

#172 Diagnosing Dough Problems

I'm having the following problems with my bread: [DESCRIPTION OF THE PROBLEM: dense crumb/pale crust/tearing/excessive sourness/poor fermentation]. Act as a bread doctor and diagnose: the possible causes of the problem (flour, hydration, fermentation, oven), how to confirm it, the necessary corrections to the recipe and process and how to prevent it in future bakes.

Recommended agent: *Creative Bakery*

#173 Daily Bakery Production Plan

I have a bakery that opens at [TIME] and I need everything to be ready by then. I produce: [LIST OF BREADS WITH QUANTITIES]. Design the backward production plan from opening time, showing at what time I must: mix each dough, do the folds, shape, move into the final proof chamber, bake, and the optimal order to use the oven efficiently.

Recommended agent: *Creative Bakery*

#174 Alternative Flours: Usage Guide

I want to add alternative flours to my bakery offering: [LIST: spelt/rye/kamut/oat/corn/rice]. For each flour: protein characteristics (gluten, if any), the maximum recommended percentage in a blend with wheat, necessary hydration adjustments, impact on fermentation and resulting flavor, and a specific bread where it shines.

Recommended agents: *Creative Bakery, Gastro Lexicum*

#175 Laminated Pastry: Complete Technique

I want to master laminated viennoiserie (such as danish, croissant and pain au chocolat). Give me the complete technique for: the base dough (détrempe) with exact proportions, the lamination butter (percentage, ideal temperature, how to prepare it), the number and type of folds, mandatory resting times between folds, the shaping technique for each piece and the perfect bake.

Recommended agents: *Creative Bakery, Creative Pastry*

#176 Signature Bread with a Regional Ingredient

Design a signature bread that incorporates [REGIONAL INGREDIENT: olive oil/olives/quince paste/local nuts/aromatic herbs] as the distinguishing element. Include: the bread concept and storytelling, the complete baker's formula, the process for incorporating the ingredient (timing and method), the expected result in flavor and texture and a suggestion for the ideal accompaniment.

Recommended agent: *Creative Bakery*

#177 Cold Fermentation: Technique and Benefits

I want to implement cold fermentation (retard) in my production kitchen. Explain: the technical benefits (flavor development, gluten structure, digestibility), how to adapt my current recipes to cold fermentation, optimal times and temperatures for different dough types, walk-in logistics for staggered production and a comparison of results vs. room-temperature fermentation.

Recommended agents: *Creative Bakery, Fermentus Pre AI+*

#178 Stock and Waste Management in the Bakery

In my bakery I have an end-of-day overproduction problem with waste of [%] of total output. Design an adjusted production management system: how to better predict demand by day of the week, what to do with leftover bread (second life, donation, last-minute discount), and how to communicate end-of-day scarcity as an advantage of craftsmanship.

Recommended agents: *Waste GenCal, Creative Bakery*

#179 Sourdough Bread Certification

I want to officially certify that my bread is 100% sourdough with no additives. Research: what certifications exist for artisan sourdough bread (national and international), the requirements of each, cost and process to obtain them, how to visually differentiate the products on the label and packaging, and how to communicate it in marketing so the customer understands and values it.

Recommended agent: *Creative Bakery*

#180 Bread Workshop for Customers

I want to run bread workshops for customers at my bakery on Saturday mornings. Design: the structure of a 3-hour workshop (theory, practice, tasting), which bread to teach at each level (beginner, intermediate), the list of materials needed, the workshop price with a profitability analysis and a communication strategy to fill it every week.

Recommended agent: *Creative Bakery*

5. Bartender / Mixologist

Prompts #181 – #190

#181 Signature Cocktail Creation

Act as a creative mixologist with 10 years of experience. I want to develop a signature cocktail for [BAR/RESTAURANT NAME] that represents [CONCEPT/STORY/PLACE]. Include: the cocktail name, ingredients with measurements in oz (and ml), preparation process (technique, glass, ice, garnish), a narrative story for the bartender to tell the guest and estimated production cost.

Recommended agent: *Bar & Lounge AI+*

#182 Seasonal Cocktail Menu

Design the [SEASON] cocktail menu for [BAR NAME] with [NUMBER] items. It must include: cocktails with alcohol (4-5), premium non-alcoholic cocktails (2-3) and shots/aperitifs (2). For each cocktail: name, ingredients with exact measurements, technique, presentation and sale price. Use seasonal fruits, herbs and flavors as the common thread.

Recommended agent: *Bar & Lounge AI+*

#183 Cocktail Batching for High Demand

At my bar I serve [NUMBER] glasses of [COCKTAIL] during a high-demand service. I need to batch them so I can serve quickly with consistent quality. Explain: how to scale the recipe to [LITERS] of batch, which ingredients to add at the moment of service (never in the batch), how to store the batch and for how long, and how to keep the quality the same as one at a time.

Recommended agents: *Bar & Lounge AI+*, *Catering AI+*

#184 Artisan Macerations and Infusions

I want to create artisan macerations and infusions for my bar using [INGREDIENTS: fruits, spices, herbs, flowers]. For each maceration: the ideal alcohol base (neutral vodka/gin/pisco/white rum), ingredient-to-liter-of-alcohol ratio, maceration time, optimal temperature and location, filtering process and stability of the final product. Suggest applications in specific cocktails.

Recommended agents: *Bar & Lounge AI+*, *Fermentus Pre AI+*

#185 High-End Non-Alcoholic Cocktails

Design a proposal of 5 high-end mocktails for non-drinking guests. I don't want fruit sodas; I want complexity, aromatic layers and the same sophistication as in the cocktails with alcohol. For each mocktail: ingredients (artisan syrups, non-alcoholic ferments, NA bitters, technical juices), preparation and presentation. With a suggested sale price.

Recommended agent: *Bar & Lounge AI+*

#186 Cocktail and Cuisine Pairing

Work with me to develop the pairing program between the cocktails at my bar and the restaurant's dishes. The dishes on the menu are: [LIST]. For each dish propose 1-2 cocktails (with or without alcohol) that harmoniously complement or contrast the flavors. Include the presentation narrative so the front-of-house team can communicate it with confidence.

Recommended agents: *Bar & Lounge AI+*, *Food Pairing AI*

#187 Bar Inventory Management

I need to optimize my bar inventory. I currently carry [NUMBER] spirits SKUs and I'm losing money on: open bottles that expire, team over-pouring and a lack of key products. Design: a pour control system (mandatory jigger, standard measures), a list of the 20 essentials of any well-stocked bar and a weekly inventory protocol.

Recommended agents: *Bar & Lounge AI+, Waste GenCal*

#188 Bar Technique Training

I'm a senior bartender and I must train my team of [NUMBER] people in bar techniques. Design the 4-week training program: Week 1 (mixology basics and spirits knowledge), Week 2 (preparation techniques and equipment), Week 3 (menu recipes + mise en place), Week 4 (guest service + selling). With a final practical evaluation.

Recommended agent: *Bar & Lounge AI+*

#189 Spirits Tasting Experience

I want to organize spirits tasting nights at my bar: [TYPE: whiskies/rums/mezcals/gins]. Design: a selection of 4-5 references with a logical progression (from smooth to complex), the host's script (introduction of each spirit, tasting vocabulary, distillery history), a tasting sheet for the participant, the event price and a snack pairing to go alongside.

Recommended agents: *Bar & Lounge AI+, Food Pairing AI*

#190 Natural and Orange Wine List

The owner wants to add a selection of natural wines and orange wines to the menu. Explain: what natural and orange wines are (sensory profile, differences from conventional wine, how to present them to skeptical guests), criteria for selecting references, 6-8 specific wines recommended to start with, serving temperature and specific food pairing for each.

Recommended agents: *Bar & Lounge AI+, Food Pairing AI*

6. Sommelier

Prompts #191 – #200

#191 Building a Wine List

Act as a sommelier with experience in high-end restaurants. I need to build the wine list for [TYPE OF RESTAURANT] with a budget of [AMOUNT] in initial stock. Design: the structure of the list (by region/grape/style), number of references per category, cost and sale price ranges, the industry-standard markup, and the 20 essential references to start with.

Recommended agent: *Bar & Lounge AI+*

#192 Wine Service and Presentation at the Table

Train the front-of-house team in correct wine service. Include: the presentation protocol (showing the bottle, opening, first pour, refilling), serving temperature by wine type (complete table), glass type by grape/region, how to detect and present a faulty wine, and simple vocabulary to describe a wine to the guest without unnecessary jargon.

Recommended agent: *Bar & Lounge AI+*

#193 Pairing for a Tasting Menu

Design the wine pairing for the following tasting menu: [DESCRIPTION OF EACH DISH ON THE MENU]. For each wine: appellation, winery, vintage if relevant, why it pairs with that dish (a technical but accessible argument), serving temperature and cost price. Also include an alternative non-alcoholic pairing option for each course.

Recommended agents: *Bar & Lounge AI+*, *Food Pairing AI*

#194 Restaurant Wine Cellar Management

I'm the sommelier in charge of the wine cellar at [RESTAURANT NAME] with a stock of [NUMBER] references and a value of [AMOUNT]. Design: a cellar inventory control system (receipts, issues, rotation), reorder criteria for each category, classification by aging potential vs. quick consumption, and how to reduce the capital tied up in stock without running out of key references.

Recommended agents: *Bar & Lounge AI+*, *Waste GenCal*

#195 Blind Tasting: WSET Methodology

I want to train my blind tasting skills using the WSET Level 3-4 methodology. Design a 3-month training plan: weekly tasting exercises (region, grapes, styles to work on), systematic tasting sheets using the WSET system, how to identify faults, how to train olfactory and gustatory memory, and how to prepare a structured identification argument.

Recommended agents: *Bar & Lounge AI+*, *Gastro Lexicum*

#196 Wine Training for the Front-of-House Team

I need to train the front-of-house team in basic wine concepts so they sell better. Design a 3-week training program (1 hour per week): Week 1 (wines of the world: the main regions on a map), Week 2 (our list: each wine with its story and pairing), Week 3 (selling technique: how to recommend wine without being pushy). With a practical tasting each week.

Recommended agent: *Bar & Lounge AI+*

#197 Themed Pairing Event

Design the gastronomic pairing event [THEME: Old World vs. New World/natural wines/champagne vs. sparkling wines/sherry wines] for [NUMBER] people at [PRICE] per person. Include: a selection of wines with their story, an adapted 4-course menu, the sommelier's script for each wine, a tasting sheet, materials for the attendees and a communication plan for the event.

Recommended agents: *Bar & Lounge AI+, Catering AI+*

#198 Wine Selection by Guest Budget

A client tells me they want to spend [AMOUNT] on wine for a table of [NUMBER] guests who will order [TYPE OF DISHES]. Help me to: recommend the best combination of wines (white, red, possibly sparkling) within the budget, justify the selection to the client, plan the service protocol and suggest how to add value without exceeding the budget.

Recommended agent: *Bar & Lounge AI+*

#199 Wines of the World: Market Trends

Research current wine market trends in my country: which appellations are growing, which wine styles the millennial consumer is looking for, the rise of natural and biodynamic wines, and the most interesting rediscovered native grapes. Include how to adapt a fine-dining restaurant's wine list to these trends with examples of specific wineries.

Recommended agents: *Bar & Lounge AI+, Gastro Lexicum*

#200 Champagne and Sparkling Wines: Complete Guide

I need to master the world of sparkling wines to improve sales at my restaurant. Create the complete guide to: types of sparkling wine (pét-nat, crémant, prosecco, cava and champagne), the production method of each, sweetness categories (brut nature to demi-sec), serving temperatures, glass types, specific food pairing for each style and selling points for the floor staff.

Recommended agent: *Bar & Lounge AI+*

7. Artisan Chocolatier

Prompts #201 – #210

#201 Developing a Bonbon Collection

Act as an artisan chocolatier with a creative focus. Design a collection of 12 bonbons for [SEASON/OCCASION] with a conceptual common thread: [THEME: flavors of the world/botanical garden/spice route]. For each bonbon: name, type of outer chocolate, description of the filling (ganache/praline/gianduja recipe), decoration technique and suggested sale price.

Recommended agent: *Creative Chocolate Making*

#202 Praline and Gianduja: Master Techniques

Explain in detail how to make artisan praline and gianduja. For the praline: types (wet, dry, mixed), nut-to-sugar proportions, nut roasting process, caramelization, grinding and final texture. For the gianduja: differences from praline, cocoa percentage, incorporation of the chocolate and the critical refining step. With base recipes and variations.

Recommended agent: *Creative Chocolate Making*

#203 Single-Origin Cacao: In-Depth Knowledge

Research the most highly regarded single-origin cacaos in fine chocolate making: [ORIGIN 1: Peru, Venezuela, Madagascar, Vietnam]. For each origin: specific region and microclimate, cacao variety (criollo/trinitario/forastero), expected aromatic profile, reference plantations or cooperatives, market price and how these cacaos influence the bar recipe (tempering and conching adjustments).

Recommended agents: *Creative Chocolate Making, Gastro Lexicum*

#204 Chocolate Shop Packaging and Presentation

Design the packaging strategy for my artisan chocolate shop [NAME]. Include: product naming and tagline, a packaging line for: individual bonbons, gift box (6 and 12 pieces), artisan bar and corporate pack. For each format: sustainable materials, mandatory label information, recommended aesthetic and packaging price range.

Recommended agent: *Creative Chocolate Making*

#205 Bean-to-Bar Route: Complete Process

Explain the complete bean-to-bar process for making chocolate from cacao beans to the finished bar. Phase by phase: receiving and selecting the cacao, roasting (roast profiles and their impact on flavor), winnowing, pre-grinding, refining in a melanger (optimal time), conching (temperature and duration for different profiles), tempering and molding.

Recommended agent: *Creative Chocolate Making*

#206 Managing Corporate Chocolate Orders

My artisan chocolate shop wants to develop the corporate channel (business gifts). Design: corporate packages by budget (basic/premium/luxury), a custom order process (lead times, minimum quantities, personalization options), a standard commercial proposal, how to prospect corporate clients and which times of year to concentrate corporate sales.

Recommended agent: *Creative Chocolate Making*

#207 Chocolate and Fine Spirits Pairing

Design a chocolate-spirits pairing experience for [NUMBER] people. Select 4-5 pairs of: chocolate type (% cacao, origin, flavor profile) + spirit (single malt whisky/aged rum/mezcal/armagnac). For each pairing: why they work together (shared aromatic compounds), tasting order and how to present it to the participant with storytelling.

Recommended agents: *Creative Chocolate Making, Food Pairing AI*

#208 Chocolate with Unconventional Ingredients

I want to develop a line of bars and bonbons with unconventional ingredients that surprise: [UNUSUAL INGREDIENT: miso/olive oil/cheese/matcha tea/flowers]. For each creation: the pairing rationale (why it works), a detailed recipe (type of chocolate, inclusion percentage of the special ingredient), preparation technique and a suggested name for the collection.

Recommended agents: *Creative Chocolate Making, Food Pairing AI*

#209 Production Scale-Up: From Artisan to Semi-Industrial

My artisan chocolate shop is growing and I need to scale production. I currently produce [QUANTITY] kg/week. I want to reach [QUANTITY]. Help me with: what additional machinery I need (with estimated cost), how to keep artisan quality while scaling, which processes to automate and which must stay manual, and the impact on unit production cost.

Recommended agents: *Creative Chocolate Making, Waste GenCal*

#210 Chocolate Festival and Fair Strategy

I'm going to take part in [NAME OF CHOCOLATE FAIR/FESTIVAL]. Design the complete strategy: which products to bring (selection criteria for a fair audience), booth presentation (visual concept, materials, shelf height), a live demonstration strategy to capture attention, how to manage stock during the fair and how to turn visitors into repeat customers.

Recommended agent: *Creative Chocolate Making*

8. Owner / Food & Beverage Entrepreneur

Prompts #211 – #220

#211 Business Plan for a First Restaurant

I want to open my first restaurant. I have [AMOUNT] in starting capital and the concept is [DESCRIPTION]. Help me build the complete business plan: local market analysis, estimate of the investment needed (renovation, equipment, licenses), month-by-month sales forecast for the first year, break-even point, financing sources other than my own capital and the main risks to mitigate.

Recommended agent: *Casual Restaurants AI+*

#212 Choosing the Location: Key Criteria

I'm going to look for a space to open a [TYPE OF FOOD & BEVERAGE BUSINESS]. Help me define: the criteria for evaluating a space (minimum square footage, layout, exhaust hood venting, electrical capacity, ventilation, acceptable cost per square foot in [CITY]), areas of the city with the best potential for my concept, red flags to spot in a space before signing and a due diligence checklist for the space.

Recommended agent: *Casual Restaurants AI+*

#213 Financing and Grants for the Restaurant Industry

I need financing for [PROJECT: opening/renovation/equipment/digitalization] in my restaurant business in [REGION/STATE]. Research: government-backed loan programs applicable to the restaurant industry, regional and national grants for restaurants and entrepreneurship, supranational or regional development funds that apply, and the terms of each (amounts, interest rate, term, requirements).

Recommended agent: *Casual Restaurants AI+*

#214 Negotiating the Takeover of a Restaurant

I want to buy an existing [TYPE OF RESTAURANT] in [AREA]. The owner is asking [AMOUNT]. The business has annual revenue of [X] with a [X%] margin. Help me to: assess whether the asking price is fair (industry multiples), critical due diligence points (debts, contracts, condition of the facilities, health inspection history), price negotiation arguments and the structure of the deal.

Recommended agent: *Casual Restaurants AI+*

#215 Expansion: Second Location or Franchise

My restaurant [NAME] is doing well and I want to expand. I have two options: open a second company-owned location or start franchising the concept. Analyze both options for my specific case: [DESCRIPTION OF THE CURRENT BUSINESS]. For each option: investment needed, time to profitability, main risks, management complexity and which one you recommend given my profile.

Recommended agent: *Casual Restaurants AI+*

#216 Revenue Diversification Strategy

My restaurant depends almost 100% on lunch/dinner service and I want to diversify revenue. Analyze these possible additional lines for [TYPE OF RESTAURANT]: own delivery, off-premise catering, a shop of own products, culinary workshops, private events, brand merchandise. For each: initial investment, revenue potential, complexity and fit with my current model.

Recommended agents: *Casual Restaurants AI+, Catering AI+*

#217 Business Crisis Management

My restaurant is in an economic crisis: revenue has dropped [%] over the last [MONTHS] because of [CAUSE]. I have [MONTHS] of cash reserves. Design the rescue plan: immediate cost-cutting actions without destroying the business, short-term strategies to increase revenue, communication to employees and suppliers and when to consider extreme options.

Recommended agents: *Casual Restaurants AI+, Waste GenCal*

#218 Balancing the Chef-Owner Role

I'm a chef and also the owner of the restaurant. I struggle to separate the roles and I'm in everything, exhausted and unable to delegate. Design: how to structure my time between management and cooking, which decisions I should make and which to delegate, how to build a trusted team to delegate to, and how to transition from a chef who cooks to a chef-owner who leads without losing the culinary essence.

Recommended agents: *Mental Coach, Casual Restaurants AI+*

#219 Chef Personal Brand Strategy

I want to build my personal brand as a chef specializing in [SPECIALTY] for [GOAL: landing consulting work/attracting clients/getting sponsors/publishing a book/giving talks]. Design: my brand's unique value proposition, platforms to build it on (Instagram, LinkedIn, TikTok, podcast), the type of content I should create weekly, how to monetize the brand and 12-month milestones.

Recommended agent: *General-purpose model (ChatGPT / Gemini)*

#220 Selling the Business: Preparation and Valuation

I want to sell my restaurant [BRIEF DESCRIPTION] within the next 2 years. Help me to: prepare the business to be more attractive to buyers (what to improve in financials, processes, contracts), how to value it correctly (valuation methods common in the restaurant industry), where to find potential buyers and how to structure the sale process while protecting confidentiality.

Recommended agent: *Casual Restaurants AI+*

9. Catering & Events Chef

Prompts #221 – #230

#221 Catering Production for 500 Guests

I'm a catering chef and I'm going to produce an event for [NUMBER] guests with the following menu: [DESCRIPTION]. Design the complete production plan: what to prepare [DAYS] ahead, what the day before, what the morning of the event and what on site. Include: refrigeration equipment for transport, reheating times, staff needed per station and service order.

Recommended agent: *Catering AI+*

#222 Catering for an Outdoor Event

I have an outdoor catering event at [TYPE OF VENUE] for [NUMBER] guests in [MONTH]. The challenges are: there's no on-site kitchen, the outside temperature is [APPROX.], and I must keep all food safe. Design: a menu adapted to the conditions (what to avoid, what works well outdoors), necessary equipment, cold transport, space setup and a food safety protocol.

Recommended agents: *Catering AI+, Allergen ID*

#223 Multicultural Menu for an International Event

I'm going to cook a banquet for an international event with attendees from [LIST OF COUNTRIES/CULTURES]. Design a menu that: respects the cultural and religious restrictions of each group (halal, kosher, Hindu vegetarian, etc.), incorporates flavors everyone can enjoy, is visually global and festive, and is operationally executable in catering. With allergen information for each dish.

Recommended agents: *Catering AI+, Allergen ID*

#224 Briefing with the Event Client

I'm about to have the briefing meeting with a client for a [TYPE] event. Prepare: the complete questionnaire I should ask them (type of event, number of guests, budget, restrictions, desired style, venue, time, protocol), the documents I should ask them for (venue floor plan, confirmation of dietary restrictions, point of contact on the day of the event) and how to close a price in that same meeting.

Recommended agent: *Catering AI+*

#225 Managing Temporary Staff in Catering

For my next event I'm hiring [NUMBER] temporary cooks who don't know my way of working. Design: a 30-minute onboarding briefing for the day of the event, assignment of stations and clear responsibilities, communication protocols during service (signals, channels), how to ensure quality and consistency with new staff and what to do if someone fails.

Recommended agents: *Catering AI+, Mental Coach*

#226 Sustainable and Zero-Waste Catering

A client is asking me for sustainable, zero-waste catering for their corporate event, and they have strong environmental values. Design: a menu built on local, seasonal ingredients, no single-use plastics (alternatives for every material), organic waste management for the event, presentation on reusable or biodegradable tableware, and how to certify the sustainability of the service and communicate it to the client.

Recommended agents: *Catering AI+, Waste GenCal*

#227 Corporate Breakfast Catering

Design the catering for a business breakfast for a [INDUSTRY] company with [NUMBER] people. The format is a 45-minute standing breakfast before a meeting. Include: sweet and savory options, hot and cold drinks, adaptations for lactose-intolerant and gluten-free guests, executive-style presentation on stations or tables, the setup and breakdown time needed, and the price per person.

Recommended agent: *Catering AI+*

#228 Post-Event Review and Improvement

I just finished the catering event [DESCRIPTION]. These problems came up: [LIST]. These things worked well: [LIST]. Help me: do a structured post-event review (what to improve, what to repeat), quantify the financial impact of the problems, document it for similar future events, and decide how to handle client satisfaction if anything fell below expectations.

Recommended agent: *Catering AI+*

#229 Catering for a Charity Event

I'm going to offer catering pro bono or at a reduced price for a charity event for [ORGANIZATION]. I need to maximize impact with a limited budget of [AMOUNT] for [NUMBER] guests. Design: the most impactful menu possible within the budget, how to secure donations from suppliers and ingredient sources, and how to use this event as a portfolio piece to attract paying clients.

Recommended agent: *Catering AI+*

#230 Catering Niche Specialization

I want to specialize in a specific catering niche: [NICHE: weddings/corporate/vegan/gourmet street food/luxury catering]. Design: the differentiating value proposition of this niche, the ideal client profile, how to position myself in this niche (portfolio, website, social media, partnerships), a justified premium price, and 3 first actions to land the first 5 clients in the niche.

Recommended agents: *Catering AI+, General-purpose model (ChatGPT / Gemini)*

10. Food & Beverage Consultant

Prompts #231 – #240

#231 Diagnosing a Restaurant in Crisis

I'm a consultant and I've been hired to diagnose a restaurant with the following symptoms: [DESCRIPTION: falling traffic/high food cost/unmotivated team/negative reviews]. Design the 2-week diagnostic process: what to analyze (financial, operational, culinary, guest), the audit methodology, analysis tools, how to present the diagnosis to the client, and the structure of the report.

Recommended agents: *Casual Restaurants AI+*, *Waste GenCal*

#232 High-Value Consulting Proposal

I need to send a consulting proposal to a [CLIENT TYPE: independent restaurant/restaurant group/hotel]. The project is [DESCRIPTION]. Write the complete proposal: consultant introduction, analysis of the situation and the problem identified, working methodology, concrete deliverables, project timeline, team involved, price (with a justification of the value), and payment terms.

Recommended agent: *Casual Restaurants AI+*

#233 Restaurant Concept Redesign

A restaurant [CURRENT DESCRIPTION: type, area, results] hired me to redesign its concept. The problem is [DIAGNOSIS]. Design the new concept: differentiated value proposition, redefined target audience, new name and branding if needed, reworked menu (what to remove, what to add, how to write it), repositioned pricing, and an implementation plan for the change.

Recommended agents: *Avant-Garde Cuisine*, *Casual Restaurants AI+*

#234 Technology Implementation for Restaurants

A [TYPE] restaurant wants to modernize its technology. It currently uses [LIST OF CURRENT SYSTEMS]. Help me design the technology transformation plan: recommended POS management software, reservation platform, social media management, delivery tools, data analytics for decision-making, and how to implement each one without disrupting operations.

Recommended agent: *Casual Restaurants AI+*

#235 Opening Consulting for an Investor

An investor with no restaurant experience wants to open a [CONCEPT] restaurant in [CITY] with [BUDGET]. Act as their opening consultant and design: concept validation in that market, the management team structure needed, site search and evaluation (criteria), interior design and equipment project, selection of the chef and key team, and a realistic 12-month timeline to opening.

Recommended agent: *Casual Restaurants AI+*

#236 Kitchen Process Audit

I've been hired to audit the kitchen processes of a [TYPE OF RESTAURANT]. Design the audit: areas to evaluate (receiving/storage/mise en place/production/pass/cleaning), evaluation criteria for each area, an observation method that doesn't interfere with service, a scoring system, identification of bottlenecks, and the format of the results report with prioritized recommendations.

Recommended agents: *Waste GenCal*, *Allergen ID*

#237 Food & Beverage Marketing Consulting

A restaurant [DESCRIPTION] has asked me to improve its digital marketing. Run a diagnosis of its digital presence: website, Instagram, Google Business Profile, TripAdvisor/Yelp. For each channel: current situation (with metrics if you have them), concrete improvement recommendations, missing content, actions for the first 30 days, and an estimate of the impact on the number of reservations.

Recommended agents: *General-purpose model (ChatGPT / Gemini), Menu Dish Local SEO*

#238 Middle Management Training in Hospitality

A restaurant chain has hired me to train its [NUMBER] location managers (head chefs and maîtres d'). Design the 2-day training program: leadership modules (communication, delegation, conflict resolution), operations management (KPIs, results analysis, cost control), and soft skills specific to the restaurant industry. With practical exercises and an application plan.

Recommended agents: *Mental Coach, Casual Restaurants AI+*

#239 Operations Manual Development

I need to create the complete operations manual for [BRAND/CHAIN] to serve as a guide for all locations. Include: the manual's structure (table of contents), the content of each chapter (kitchen standards, front of house, guest service, hygiene, human resources, local marketing), how to make it visual and usable in digital and print formats, and a process for regular updates.

Recommended agent: *Casual Restaurants AI+*

#240 Trends and Future of the Food & Beverage Industry

As a food and beverage consultant, I need to stay current on the macro trends that will transform the industry over the next 3-5 years. Research and analyze: the impact of AI on food service, alternative proteins and their mass adoption, sustainability as a competitive advantage, the total digitalization of the restaurant, changes in consumer behavior after the pandemic, and the kitchen technology of the future.

Recommended agents: *Gastro Lexicum, Casual Restaurants AI+*

BLOCK C

Business Types + Agents

#241 – #300

Prompts specific to each type of food & beverage business and to the specialized agents in the AI Chef Pro suite. Designed for the concrete situations of each business model.

1. Independent Restaurant

Prompts #241 – #247

#241 A Restaurant's Unique Value Proposition

I own an independent restaurant [DESCRIPTION] that competes with big chains and trendy restaurants. Help me define my unique value proposition (UVP): what I have that chains can never have, how to communicate it at every guest touchpoint, and how to turn my independence into a strength instead of a weakness.

Recommended agent: *Casual Restaurants AI+*

#242 Profitable and Appealing Daily Set Menu

I run a restaurant with a daily set menu at [PRICE]. Help me build next week's menu: [NUMBER] first-course options, [NUMBER] second-course options, and dessert. Criteria: maximum food cost of [%], use the seasonal products available, enough variety, executable by [NUMBER] cooks within service time, and appealing enough to build loyalty with regular guests.

Recommended agents: *Avant-Garde Cuisine, Waste GenCal*

#243 Managing an Intense Peak Season

My restaurant is in a tourist area and the peak season of [MONTHS] multiplies covers by [NUMBER]. Design the peak season plan: temporary hiring (profiles, process, accelerated training), menu adaptation for faster service, managing team stress, intensified quality control, and how to capitalize financially on the peak season.

Recommended agents: *Casual Restaurants AI+, Mental Coach*

#244 Digitizing a Small Restaurant

I run a traditional family restaurant and I want to go digital without losing the soul of the business. Available budget: [AMOUNT]. Prioritize the implementation of: a modern POS system, a Google presence, a QR digital menu, an online reservation system, and first social media accounts. For each tool: cost, implementation time, expected impact, and a concrete solution recommendation.

Recommended agent: *Casual Restaurants AI+*

#245 Local Community: Be the Neighborhood Restaurant

I want my restaurant to be THE restaurant of the [NAME OF NEIGHBORHOOD/AREA] neighborhood. Design the strategy to connect with the local community: collaboration with neighboring businesses, presence at neighborhood events, a local loyalty program, a special menu for residents, a relationship with local schools, associations, and sports teams, and how to become the area's culinary reference.

Recommended agents: *Casual Restaurants AI+, Menu Dish Local SEO*

#246 Delivery as an Additional Channel

I want to add delivery to my [TYPE] restaurant without hurting the quality of service in the dining room. Design: which menu dishes suit delivery best (selection criteria), packaging adaptations for each dish, whether to use third-party platforms or my own delivery (analysis for my case), pricing and optimal radius, and how to operationally manage both channels in parallel.

Recommended agent: *Casual Restaurants AI+*

#247 Special Celebrations at the Restaurant

I want to boost special celebrations (birthdays, anniversaries, farewell parties) at my restaurant.
Design: a special celebration menu at a fixed price, a special group welcome protocol, a surprise welcome touch, birthday cake or special dessert options, and the acquisition strategy (how to get chosen for these special occasions).

Recommended agents: *Casual Restaurants AI+, Creative Pastry*

2. Casual Restaurant & Bistro

Prompts #248 – #249

#248 Modern Bistro Concept

I want to open a modern bistro in [CITY] with a fresh, differentiating concept. Design: concept positioning (what kind of bistro, who it's for, what makes it different), a 20-25 dish menu with selling prices, recommended atmosphere and decor for the concept, the profile of the team needed, and the differentiator against the existing bistros and tapas bars in that city.

Recommended agents: *Casual Restaurants AI+, Avant-Garde Cuisine*

#249 Profitable Tapas and Small Plates Menu

I have a tapas gastrobar in [CITY]. Design the new tapas and small plates menu with: 8 fixed tapas (cold and hot), 4 sharing plates, 3 main courses, 2 desserts, and a by-the-glass wine list. For each tapa/dish: name, menu description (20 words), selling price, and estimated food cost. Oriented toward maximizing the average check per table.

Recommended agents: *Spanish Cuisine, Waste GenCal*

3. Hotel & Hotel Food Service

Prompts #250 – #256

#250 F&B Strategy for an Independent Hotel

I'm the F&B director of a [CATEGORY] hotel with [NUMBER] rooms in a [TYPE OF DESTINATION]. The food and beverage area currently generates [AMOUNT] in revenue and the goal is to grow it by [%]. Design the complete F&B strategy: optimizing the hotel restaurant, a differentiating breakfast experience, a revised room service, the hotel bar as a local destination, and events as a source of revenue.

Recommended agents: *Catering AI+, Casual Restaurants AI+*

#251 Premium Hotel Breakfast

I want to turn my [CATEGORY] hotel's breakfast into a memorable experience that is a selling point for the rooms. Design the premium breakfast concept: regional artisan products, live stations, healthy and special options (gluten-free, vegan, low-carb), visual presentation of the buffet, and how to communicate it on the website and booking platforms.

Recommended agents: *Catering AI+, Allergen ID*

#252 Room Service: Redesign for Profitability

My hotel's room service loses money. Monthly revenue: [AMOUNT] vs. cost of service: [AMOUNT]. Redesign the room service model to make it profitable: a reduced menu focused on the highest-turnover, highest-margin items, optimized hours, a minimum order, eliminating the extra charge or building it into the price, and possibly a digital replacement (ordering app).

Recommended agents: *Catering AI+, Waste GenCal*

#253 Hotel Banquets and MICE

I want to grow the banquet and MICE (meetings, incentives, conferences, events) business at my hotel. Design: F&B packages for corporate events (coffee break, working lunch, gala dinner) with a price per person, a menu tasting room for clients, the sales and follow-up process, and how to position the hotel as a premium venue in the MICE market in [CITY].

Recommended agent: *Catering AI+*

#254 Hotel Bar as a Local Destination

My hotel's bar is only used by guests. I want to turn it into a go-to bar for locals in [CITY]. Design: the bar's differentiating concept (what we offer that other bars don't), a differentiated drink and snack menu, a program of events and themed nights, communication aimed at the local public, and how to bring hotel guests and locals together in the same space.

Recommended agent: *Bar & Lounge AI+*

#255 F&B in a Boutique Hotel with Local Identity

I have a boutique hotel with [NUMBER] rooms that wants its restaurant to be the culinary expression of the destination [PLACE]. Design: a food concept based on local cuisine (products, techniques, history), how to bring local producers into the menu, culinary experiences for guests (farm dinner, morning market, local cooking classes), and how to communicate it in the hotel's offering.

Recommended agents: *Spanish Cuisine, Catering AI+, Gastro Lexicum*

#256 Loss Control in Hotel F&B

My hotel's F&B department has unexplained losses of [AMOUNT] per month between inventory and billing. Design the loss control plan: an audit of receiving and storage processes, a portion control system in the kitchen and bar, management of internal staff consumption, detection of unrecorded waste, and a monthly report for management.

Recommended agent: *Waste GenCal*

4. Ghost Kitchen / Delivery

Prompts #257 – #263

#257 Multi-Brand Ghost Kitchen Concept

I want to create a multi-brand ghost kitchen in [CITY] from a space of [SQUARE FEET]. Design the concept: which [NUMBER] virtual brands to launch (with names, culinary concepts, and distinct target audiences), how to share the kitchen efficiently across brands, which delivery platforms to use (DoorDash/Uber Eats/Grubhub/own), a basic financial model, and the risks of the model.

Recommended agent: *Casual Restaurants AI+*

#258 Menu Optimized for Delivery

I run a ghost kitchen serving [TYPE] cuisine. The current menu has [NUMBER] items but 30% lose money in delivery because of packaging and delivery time. Optimize the menu for delivery: criteria for removing items unsuited to delivery, packaging improvements for the dishes that do work, star products to push, and the ideal menu architecture on the platforms (how to organize it so it sells).

Recommended agents: *Casual Restaurants AI+, Waste GenCal*

#259 Platform Rating Strategy

My delivery brand has a rating of [SCORE] on [PLATFORM] and I need to raise it. Identify: the most common causes of low delivery ratings (temperature, time, order accuracy, packaging), concrete actions to improve each one, how to handle negative reviews on the platform, a response protocol, and a strategy for getting more positive reviews.

Recommended agent: *Casual Restaurants AI+*

#260 Sustainable Packaging for Delivery

I want to move all my delivery packaging to sustainable materials without raising the price the guest perceives. Analyze: sustainable alternatives for each type of container I currently use (box, cup, cutlery, bag), additional cost per order, eco-friendly packaging suppliers in my area, how to communicate it in the app as added value, and an estimate of the impact on brand image.

Recommended agent: *Casual Restaurants AI+*

#261 Platform Profitability Analysis

I'm on [PLATFORMS] and I pay commissions of [%]. My average check is [PRICE] and my food cost is [%]. Calculate: the real margin per order on each platform, the average check at which the business becomes profitable, whether I should negotiate commissions or build my own delivery, and which part of the menu I should drop because it isn't profitable after platform commissions.

Recommended agent: *Waste GenCal*

#262 Launching a New Virtual Brand

I'm going to launch a new virtual brand of [CULINARY CONCEPT] from my ghost kitchen. Design the launch plan: brand name and concept, debut menu (6-8 items), product photography (a brief for the photographer), platform profile setup (keywords, description), launch discount and promotion strategy, and 30-day success KPIs.

Recommended agents: *Casual Restaurants AI+, General-purpose model (ChatGPT / Gemini)*

#263 Average Check: Strategies to Increase It

My delivery average check is [PRICE] and I want to raise it to [PRICE]. Design strategies to increase it without raising prices: strategic combos and full meals, automatic upselling in the app (which add-on suggestions to offer with each dish), product bundling, premium options for each dish, and wording in each product description to raise perceived value.

Recommended agent: *Casual Restaurants AI+*

5. Pastry Shop & Production Kitchen

Prompts #264 – #269

#264 Business Model for an Artisan Pastry Shop

I want to open an artisan pastry shop with a differentiating concept in [CITY]. Design the business model: brand concept and storytelling, the ideal product mix (cakes/tarts/viennoiserie/chocolate), sales channels (shop/website/markets/delivery/B2B), cost structure for a production kitchen of [SQUARE FEET], break-even point, and a 2-year growth plan.

Recommended agents: *Creative Pastry, Waste GenCal*

#265 B2B: Selling to Restaurants and Hotels

I have an artisan production kitchen and I want to develop the B2B channel by selling my products to restaurants and hotels. Design: a B2B catalog (which products suit this channel), wholesale pricing and minimum order terms, the B2B client acquisition process (visit, sample, close), delivery logistics, and how to manage recurring orders with minimal administrative work.

Recommended agent: *Creative Pastry*

#266 Custom Cakes: Order Management

My pastry shop is getting more and more custom cake orders and the process is chaotic. Design: the order flow (from the client's request to delivery), a standardized order form with all the necessary information, minimum lead times by cake type, a deposit and payment policy, handling last-minute changes, and how to manage production with simultaneous orders.

Recommended agent: *Creative Pastry*

#267 Social Media Strategy for a Pastry Shop

My pastry shop has [NUMBER] Instagram followers and barely sells through social media. Analyze what might be going wrong and design the content strategy for a pastry shop: which type of content works best (process/result/behind the scenes/educational), posting frequency, how to present each product so it generates orders, and how to use stories to drive sales.

Recommended agent: *General-purpose model (ChatGPT / Gemini)*

#268 Gluten-Free Certification in Pastry

I want to officially certify my production kitchen to make gluten-free products safely for people with celiac disease. Research: the certification process of a gluten-free certification body (e.g., GFCO in the US, Coeliac UK), facility and process requirements, the investment needed (adaptations, testing, training), how to communicate it to your clients, and the expected impact on sales.

Recommended agents: *Allergen ID, Creative Pastry*

#269 Pastry School Built into the Production Kitchen

I want to add pastry workshops for customers in my production kitchen as an additional source of revenue. Design: workshop types (beginner/themed/professional), the structure of each workshop (duration, content, materials), selling price per person with a profitability analysis, maximum capacity, a management and booking platform, and a communication strategy to fill every workshop.

Recommended agent: *Creative Pastry*

6. Bar & Cocktails

Prompts #270 – #275

#270 Differentiating Cocktail Bar Concept

I want to open a cocktail bar in [CITY] with a concept different from what's already out there. Design the concept: brand name and story, cocktail style (technique, ingredients, cultural references), a menu of 12-15 signature cocktails with prices, a proposed snack pairing menu, target guest profile, and a differentiation strategy against the existing cocktail bars.

Recommended agent: *Bar & Lounge AI+*

#271 Seasonal Cocktails with Fresh Ingredients

I want to refresh [BAR]'s cocktail menu every season using fresh seasonal ingredients. For the [SEASON] season: available seasonal ingredients [LIST], design 4 new cocktails (2 with alcohol and 2 without) that showcase them. With a complete recipe, name, story, and how to communicate the menu change to regular guests.

Recommended agents: *Bar & Lounge AI+*, *Food Pairing AI*

#272 Natural Wine Bar: Concept and List

I want to open a natural wine bar in [CITY/NEIGHBORHOOD]. Design: the bar concept and how to communicate natural wines to guests who are new to them, a list of 15-20 natural wines organized in an accessible way (by flavor profile rather than by region), snacks and small plates to go with the wines, glass and bottle pricing, and a strategy for scheduling tasting nights.

Recommended agents: *Bar & Lounge AI+*, *Food Pairing AI*

#273 Late-Night Program and Special Night

My bar has low profitability in the late-night slot (11 PM to 3 AM). Design the proposal to activate this time slot: the type of music or entertainment programming that fits my concept, a special night offer of drinks and bites, smart promotions that don't hurt margins, how to communicate it on social media to attract a night crowd, and a capacity management protocol.

Recommended agent: *Bar & Lounge AI+*

#274 Making Artisan Syrups and Bitters

I want to make all my syrups, bitters, and house bitters in the bar. For the following products: simple syrup, spice syrup, fresh herb syrup, citrus bitters, aromatic bitters. Give me the recipe for each one with: exact ingredients and proportions, production process, maceration/cooking time, filtering, storage, and shelf life. With suggested cocktails where each can be used.

Recommended agents: *Bar & Lounge AI+*, *Fermentus Pre AI+*

#275 Cocktail Cost Management

My cocktail costs are above target. I have [NUMBER] cocktails on the menu with an average cost of [%] and I want to bring it down to [%]. For each cocktail on the menu: [RECIPE AND CURRENT COST], analyze where the highest costs are, which ingredients can be substituted without losing perceived quality, which pour control measures to implement, and how much each action saves.

Recommended agents: *Bar & Lounge AI+*, *Waste GenCal*

7. Food Truck

Prompts #276 – #281

#276 Original Food Truck Concept

I want to launch a food truck with an original concept in [CITY/REGION]. Design: a differentiating food concept (what cuisine, what story, what personality the truck has), a menu of 5-7 star products with selling prices, a social media positioning strategy, an event and market plan for the first 3 months, and an estimate of daily revenue under different scenarios.

Recommended agent: *Food Truck AI+*

#277 Food Truck Operational Optimization

I run a [TYPE OF CUISINE] food truck and my customers' wait time is too long ([MINUTES] on average). Design how to optimize: mise en place before opening (what to prep and in what order), workflow during service (each person's position, a map of the truck), batch cooking techniques for the most in-demand products, and a reduced menu for high-demand events.

Recommended agents: *Food Truck AI+, Waste GenCal*

#278 Food Truck Permits and Regulations

I want to launch my food truck in [STATE/CITY]. Give me the complete map of: required permits and licenses (mobile vending, food handler, vehicle operation), vehicle requirements (gas, electrical, and water installation), the zones where I can legally operate in [CITY], time restrictions, and the steps for a legal start-up within [MONTHS] months.

Recommended agent: *Food Truck AI+*

#279 Food Truck Event Calendar

Design the annual event calendar for my [TYPE OF CUISINE] food truck in [REGION]. Include: food festivals, farmers markets, music and culture festivals, sporting events, and local fairs with approximate dates, how to apply for a spot at each type of event, estimated participation cost, and potential revenue per event so I can prioritize the most profitable ones.

Recommended agents: *Food Truck AI+, General-purpose model (ChatGPT / Gemini)*

#280 Social Media for a Food Truck: Strategy

My food truck needs to use social media to announce where we'll be each day and build community. Design: a daily location communication strategy (what to post, when, on which platform), the type of content to build the truck's personality beyond its location, how to manage social media in real time during service, and how to grow the truck's fan community.

Recommended agents: *General-purpose model (ChatGPT / Gemini), Food Truck AI+*

#281 Expansion: From Food Truck to Restaurant

My food truck has been doing well for [TIME] and I want to make the leap to a fixed location. Design the transition: how to validate the concept for a fixed location (does it work as a sit-down?), what from the food truck to preserve in the restaurant (essence, menu, communication), critical operational differences between a truck and a restaurant, the investment needed, and whether it makes sense to keep the truck or sell it when the restaurant opens.

Recommended agents: *Food Truck AI+*, *Casual Restaurants AI+*

8. Specialized Agents: Fermentation

Prompts #282 – #284

#282 Signature Garum in Modern Cooking

Act as an expert in fermentation and avant-garde cuisine using Fermentus Pre AI+. I want to develop a garum made from [PROTEIN: chicken/pork/beef/shellfish] to use as a flavor enhancer in my restaurant. Include: a recipe with koji and protein proportions, fermentation temperature, process time, signs that it's going well or badly, filtering, and final storage. Concrete culinary applications.

Recommended agent: *Fermentus Pre AI+*

#283 Gourmet Flavored Kombucha

I want to produce premium flavored kombuchas to serve in my restaurant as a sophisticated non-alcoholic alternative. Design: a base kombucha recipe (tea, SCOBY, sugar, proportions, temperatures), the first and second fermentation process, natural flavorings with [FRUITS/FLOWERS/SPICES], controlled carbonation, bottling, and shelf life. With applications such as food pairing.

Recommended agent: *Fermentus Pre AI+*

#284 House-Made Miso and Shiro

I want to make artisan miso in my restaurant to develop our fermented cuisine identity. Using Fermentus Pre AI+: a recipe for rice or barley koji (spores, temperature, humidity, time), koji/soybean/salt proportions for miso of different intensities, aging time based on the desired profile, storage, and how to gradually introduce it into the dishes on the menu.

Recommended agent: *Fermentus Pre AI+*

9. Specialized Agents: World Cuisines

Prompts #285 – #290

#285 Authentic Japanese Cuisine Menu

I'm a chef and I want to create an authentic Japanese cuisine menu for my restaurant. Using AI Chef Pro: design a menu of [NUMBER] dishes that covers different Japanese techniques (raw/marinated/cooked/fried/grilled), with authentic ingredients available in my area, their origin stories, and the adaptation needed for the local palate without losing authenticity.

Recommended agents: *General-purpose model (ChatGPT / Gemini), Food Pairing AI*

#286 Signature Dishes of Peruvian Cuisine

I want to bring techniques and dishes from Peruvian cuisine into my fusion restaurant. Using Peruvian Cuisine: explain classic ceviche and its regional variations (tiger's milk marinade, tiradito, causa limeña), lomo saltado as an Andean wok technique, and Peruvian chiles (ají amarillo, rocoto, panca) with their flavor profiles and how to source or substitute them locally.

Recommended agents: *Peruvian Cuisine, Food Pairing AI*

#287 Rooted Mexican Cuisine Recipes

Using Mexican Cuisine: design a rooted Mexican cuisine menu (not Tex-Mex) with [NUMBER] dishes that represent the different regions and techniques: nixtamalized corn masa, moles, comal techniques, dried chile marinades. For each dish: region of origin, ingredients with local substitutes if applicable, the key technique, and how to present it on the menu for a non-Mexican audience.

Recommended agents: *Mexican Cuisine, Gastro Lexicum*

#288 Indian Cuisine: Curries and Spices

I want to develop an authentic Indian cuisine menu for a [TYPE OF RESTAURANT]. Using Indian Cuisine: explain the different regional styles (north/south, Mughal/vegetarian), essential spice blends (garam masala, curry powder, chaat masala) with house recipes, the 6 most important cooking techniques in Indian cuisine, and 5 representative dishes with complete recipes.

Recommended agents: *Indian Cuisine, Food Pairing AI*

#289 French Cuisine: Mastering the Fundamentals

Using French Cuisine: I want to master the fundamentals of classic French cooking. Give me the complete guide to: the 5 mother sauces and their most important derivatives, the classic cooking techniques (braising, sautéing, poaching, gratinéing), the kitchen stocks (recipes for brown stock, white veal stock, fish fumet), and the dishes every chef should know from cuisine classique.

Recommended agents: *French Cuisine, Gastro Lexicum*

#290 High-End Plant-Based Cuisine

Using VegChef Plant-Based: develop 5 plant-based dishes for a fine dining menu that will satisfy non-vegetarian guests. The challenge: satisfying plant protein without processed soy, deep umami without animal products, and textures that recall meat or fish dishes without imitating them. For each dish: concept, complete recipe, and the flavor rationale for the menu.

Recommended agents: *VegChef Plant-Based, Food Pairing AI*

10. Specialized Agents: Technical Tools

Prompts #291 – #294

#291 Universal Kitchen Measurement Converter

Using Ingredient Converter: help me standardize all the units in my kitchen. I need the conversion table for: ounces to grams, pounds to kilos, cups to milliliters and grams (by ingredient density), tablespoons and teaspoons to ml, and temperatures from °F to °C. Also give me the equivalences for the most-used ingredients: 1 cup of flour/sugar/rice/oil/butter in grams.

Recommended agent: *Ingredient Converter*

#292 Recipe Scaling with Ingredient Converter

Using Ingredient Converter: I need to scale this original recipe of [NUMBER] servings to [NEW NUMBER] servings. [FULL RECIPE WITH INGREDIENTS AND EXACT WEIGHTS (GRAMS OR OUNCES)]. Beyond simple multiplication, indicate: which ingredients don't scale linearly (yeast, gelatin, spices, salt), oven time and temperature adjustments for larger volume, and possible changes to the production process.

Recommended agents: *Ingredient Converter*, *Waste GenCal*

#293 Gastro Lexicum: Fine Dining Terms

Using Gastro Lexicum as a tutor: I'm a cook with [YEARS] years of experience and I want to expand my technical vocabulary of French and Spanish haute cuisine. Give me the complete glossary of the 50 most important technical terms every professional cook should know, with a precise definition, context of use, and an example in a real recipe. Level: intermediate-advanced professional.

Recommended agent: *Gastro Lexicum*

#294 Waste Analysis with Waste GenCal

Using Waste GenCal in an advanced way: I need the complete yield loss analysis for preparing a tasting menu of [NUMBER] dishes. The main ingredients are [LIST]. For each ingredient: net yield by preparation process, gross and net cost, equivalent for [NUMBER] servings, and a suggestion for using the by-product left over from the trim.

Recommended agent: *Waste GenCal*

11. Specialized Agents: Content & Social Media

Prompts #295 – #297

#295 Local SEO for Every Dish on the Menu

Using Menu Dish Local SEO: I want to create SEO-optimized content for the [NUMBER] main dishes on my menu in [CITY]. For each dish, generate: a local SEO title (55 characters with the city keyword), a web description (150 words), 5 secondary local long-tail keywords, a short Google Business Profile description (100 words), and text for a blog post about that dish.

Recommended agent: *Menu Dish Local SEO*

#296 Annual Food Content Calendar

Using AI Chef Pro: create the food content calendar for the whole year [YEAR] for a [TYPE OF BUSINESS] in [CITY/COUNTRY]. Include: key food dates (world food days, local holidays with culinary tradition), product seasons, industry events, and a specific content idea for each highlighted date across the 12 months.

Recommended agent: *General-purpose model (ChatGPT / Gemini)*

#297 Viral Cooking Reels

Using AI Chef Pro: design a series of 5 Instagram Reels focused on [TOPIC: cooking techniques/dishes of the day/behind the scenes/easy recipes] for a [TYPE OF RESTAURANT/CHEF]. For each Reel: video concept, scene-by-scene outline with durations, on-screen text for each scene, suggested music (genre), an opening hook for the first 3 seconds, and a final CTA.

Recommended agent: *General-purpose model (ChatGPT / Gemini)*

12. Specialized Agents: Business Concepts

Prompts #298 – #299

#298 Gourmet Burger Joint: Concept and Menu

Using Burgers Pro AI+: design the complete concept of a gourmet burger joint in [CITY]. Include: name and differentiating concept, a menu of 8 burgers with creative names and descriptions, house sauces and signature sides, vegan and gluten-free options, selling prices with estimated food cost, suggested drinks, and what makes this burger joint different from the 20 that already exist.

Recommended agent: *Burgers Pro AI+*

#299 Bar & Lounge: Premium Night Experience

Using Bar & Lounge AI+: design the complete experience of a premium bar for a [HOTEL/STANDALONE BAR] in [CITY]. The concept is [DESCRIPTION]. Include: the bar architecture (spirits, wines, beers, non-alcoholic), a signature cocktail menu (6 items), bar snacks that can be ordered at the table, a welcome and service protocol, atmosphere (music, lighting), and a monthly special night proposal.

Recommended agent: *Bar & Lounge AI+*

13. Specialized Agents: Vision of the Future

Prompts #300 – #300

#300 AI in Food & Beverage: Personal Implementation Plan

I'm a food and beverage professional [DESCRIBE PROFILE AND SITUATION] and I want to use AI Chef Pro to its full potential. Design my personal plan for adopting AI in my work: the 10 agents in the suite most relevant to my specific profile, how to integrate them into my daily workflow, expected results at 30/60/90 days of regular use, how to measure the real impact, and which prompting skills I should develop first.

Recommended agent: *Every agent in the suite*

Thank you for choosing AI Chef Pro!

You now hold 300 tools to transform your food & beverage work.

The only limit is your curiosity.

aichef.pro
